RE: *Specific Use Permit Application – Solid Impact LLC dba The Back Nine at 721 Keller Parkway, Suite 110, Stone Glen Village Retail Center*

To Whom It May Concern:

Please consider this letter to be a formal request for consideration and approval of a Specific Use Permit (SUP) for a new The Back Nine facility to be located within an existing tenant space in the Stone Glen Village Retail Center at the above noted address. The shopping center lies within the designated R-Retail Zone, in which, "Entertainment Facility/Indoor" must achieve approval of a Specific Use Permit for the application of construction permits.

The Back Nine is an innovative indoor golf facility that will provide a state-of-the-art experience for golf enthusiasts of all skill levels. Designed as a premier destination for entertainment and practice, The Back Nine will be a 24/7 operation, offering a unique and convenient golfing experience for the community.

The Back Nine will operate 24 hours a day, seven days a week, ensuring that golfers can enjoy their favorite sport at any time that suits their schedule. Unlike traditional golf establishments, this facility will not serve alcohol, nor will it have an outdoor patio or dining area. However, members will have the option to bring their own food and non-alcoholic beverages or order deliveries from neighboring restaurants. To enhance the experience, a limited selection of sports drinks, sodas, and snacks will be available for purchase on-site.

All operations will take place indoors, providing a controlled environment that is unaffected by weather conditions. The facility will be equipped with advanced golf simulators and training areas designed to improve skills and provide an immersive experience. This setup ensures that The Back Nine remains an all-season destination for both casual and serious golfers.

The Back Nine will be joining a diverse lineup of businesses at the Stone Glen Village Retail Center. Neighboring tenants at 721 Keller Parkway include Baja Cantina, i Fratelli Pizza, Aroma Grill and Bar, Edible Arrangements, Alliance Ju-Jitsu, and Hoola Hoops Boutique. Additional standalone businesses within the shopping center include Zaxby's, Huckleberry's, Einstein Bros Bagels, and Sonic Drive-In. The facility aims to complement these businesses by offering an engaging entertainment option that will draw additional foot traffic to the area.

The location previously housed a piano store, which will now be transformed into an indoor golf experience. The remodel will be focused on interior renovations to accommodate the golf simulators and lounge areas. No significant exterior modifications are planned beyond the installation of a new The Back Nine sign (pending approval) and window decals featuring the company's logo and contact information.

The property boasts approximately 125 dedicated parking spaces, including five handicap-accessible spots, ensuring ample parking for visitors. Additionally, the standalone buildings within the shopping center maintain their own designated parking areas. The site features multiple ingress and egress points from Keller Parkway and Bourland Road, facilitating easy access for customers. The remodel will not impact existing traffic circulation or accessibility at the property.

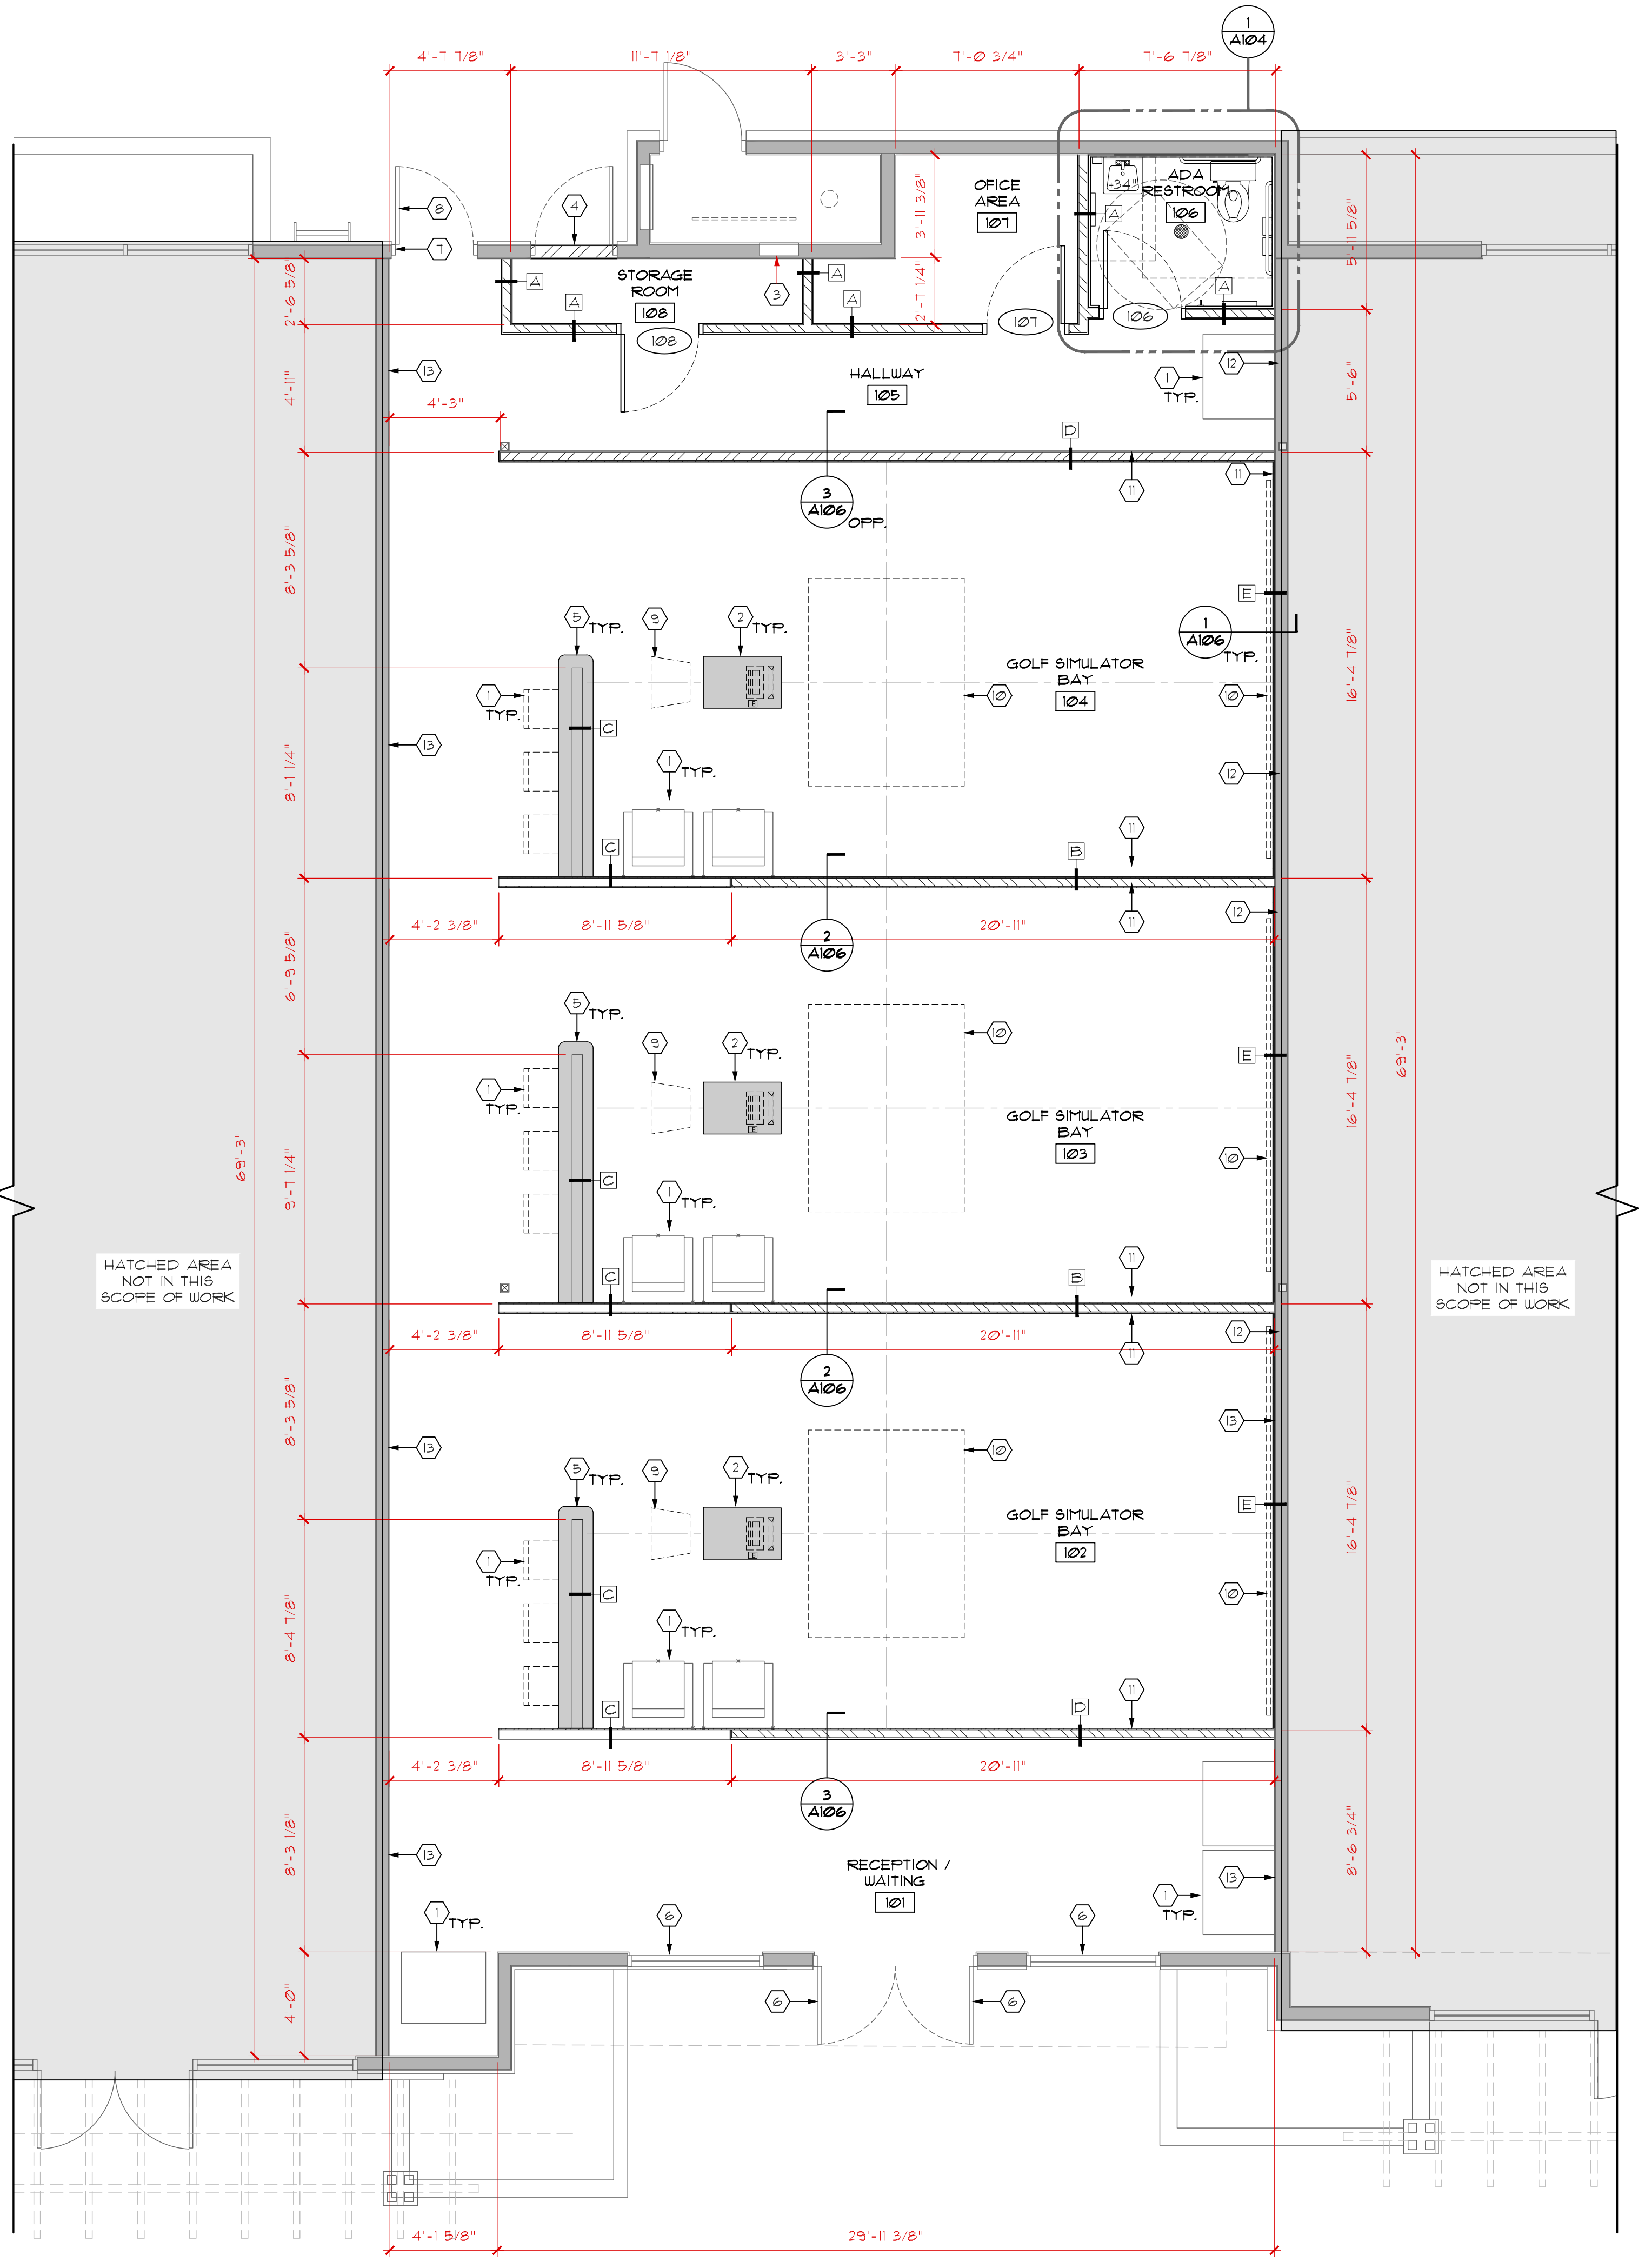

The exterior modifications will be minimal, with only signage and window decals planned to enhance brand visibility. There will be no outdoor music or entertainment, ensuring that the ambiance of the surrounding businesses remains undisturbed. Photos of the exterior of the existing shopping center have been included with this narrative/letter.

Back Nine Golf is committed to delivering a top-tier indoor golfing experience to the community while seamlessly integrating into the existing retail environment. With its unique 24/7 accessibility, cutting-edge technology, and commitment to customer satisfaction, Back Nine Golf will become a premier destination for golf enthusiasts in Keller, Texas. Should there be any questions regarding this application, or the materials submitted, please do not hesitate to contact the undersigned.

Sincerely,

Roger Smith

Subject: Specific Use Permit Application

Reference: SUP-2503-0013

Dear Mayor and Council Members,

I hope this email finds you well. I'd like to tell you about The Back Nine, a new and exciting business in which I am currently applying for a specific use permit in the City of Keller.

First, let me share a bit about me. I am a long-time resident in the City of Keller. My wife and I raised our children here and we have greatly enjoyed living in Keller. I am nearing the end of a 35-year corporate career, and I am transitioning to a new opportunity that I would like to tell you about.

The Back Nine is a new, fast growing national franchise system offering indoor golf played on a state-of-the-art simulator supplied by Full Swing.

The Back Nine offers a unique entertainment option for Keller residents

This facility will introduce an exciting and unique recreational option that blends fun, physical activity, socialization, and friendly competition for family and friends. As an indoor facility, The Back Nine offers year-round entertainment, ensuring fun for families regardless of the weather in North Texas. The weather outside could be cold and rainy, hot and humid, windy; it doesn't matter, the conditions inside The Back Nine will always be the same. Plus, you'll never lose a golf ball at The Back Nine!

The Back Nine supports the local economy

By attracting visitors from within and outside Keller, the facility will contribute to the economic vitality of Keller primarily through boosting retail spending particularly at local restaurants. While The Back Nine will offer a limited selection of sports drinks and prepackaged snacks, we will also provide menus to local restaurants and encourage patrons to order food that they may enjoy at The Back Nine while playing their round of golf. We will also explore partnerships with local businesses that will draw Back Nine customers to their businesses.

The Back Nine appeals to all skill levels

Whether someone is a seasoned golfer or a beginner, the entertainment-style golf experience will be inclusive, ensuring that everyone, from young kids to adults, men and women; all can participate and have fun. The semi-private bays allow players to practice their game without others watching. The Full Swing technology also offers real time feedback which helps players improve their game.

The Back Nine is available anytime

With extended hours of operations, the facility will accommodate busy schedules, making it easy for business professionals to visit before or after work, for families to visit before or after school, during evenings and on weekends. The facility will serve as a gathering spot for local families, friends, and organizations, fostering a stronger sense of community and providing a go-to location for special events and celebrations.

I am very excited about bringing The Back Nine to the City of Keller. If any of you would like to learn more about The Back Nine or have any questions, please let me know. I would welcome the opportunity to meet with you in person or virtually at your convenience.

My permit application (Reference No: SUP-2503-0013) is currently scheduled to be reviewed by the Planning & Zoning Commission on April 8 and by the City Council on May 6.

Sincerely,

Roger W. Smith
