

Petition For Car Port
 Roger Locke
 145 Travis Street
 Keller, Texas 76248

I would like a cedar carport built next to my fence and house on the side where the driveway meets the fence located at 145 Travis Street, Keller, Texas 76248. It will be a single carport design.

By adding the carport it would blend in with the property and help me protect my vehicle from the weather and tree limbs and sap from the adjacent pecan tree.

I feel with the cedar carport it will help increase the value of the property in our area.

I have attached several pictures of the type of car port I would like to build.

I would appreciate your signature on the attached form showing your approval of this carport on my property.
