Property Beautification Project Description

This grant proposal aims to enhance the visual appeal and overall curb appeal of our business façade through a comprehensive beautification initiative. Our goal is to create a welcoming, attractive environment that reflects positively on the community and encourages greater customer engagement.

The scope of the project includes several key improvements designed to refresh and revitalize the exterior of the building and its surrounding landscape:

1. Landscaping Enhancements

We will be replanting the grass to establish a lush, green lawn that improves the property's overall aesthetics and contributes to a more inviting streetscape. In addition to the new grass, we will refresh the flower beds by laying decorative rock mulch, which will provide a clean, polished look while helping to retain soil moisture and reduce maintenance. To further accentuate the landscaping, strategically placed boulder rocks will be introduced to add natural texture and visual interest, creating focal points that complement the building's façade.

2. Building Exterior Restoration

To preserve the structural integrity and enhance the appearance of the building, we will address several maintenance issues. This includes sanding and caulking to smooth surfaces and seal gaps in the original 75-year-old wood siding, preventing moisture intrusion and improving durability. Rotten or damaged wood elements on the building will be carefully removed and replaced with new, weather-resistant materials to ensure long-term preservation.

3. Repainting

A fresh coat of paint will be applied to the entire façade, revitalizing the building's appearance with a clean, restored finish. The repainting will not only enhance curb appeal but also provide protective benefits, shielding the exterior from weather-related wear and extending the lifespan of the building materials.

Impact of the \$10,000 Grant

The \$10,000 grant will play a crucial role in the successful completion of this project by assisting with key costs associated with materials and labor. Specifically, the grant funds will enable us to:

- Purchase quality landscaping materials, including grass seed/sod, decorative rocks, and boulder accents, ensuring a professional and polished finish.
- Acquire the necessary paint, caulking, and wood replacement materials to restore and protect the building façade effectively.
- Cover labor expenses for skilled local contractors who will perform sanding, caulking, wood replacement, and painting with attention to detail and craftsmanship.

Without this financial support, the scope and quality of improvements would need to be scaled back significantly, limiting the project's overall impact. The grant ensures that we can complete all planned enhancements to a high standard, maximizing the visual transformation and contributing to a more vibrant business district.

Community and Economic Benefits

Through these combined efforts, the project will significantly uplift the property's exterior, contributing to a more vibrant business corridor and fostering community pride. This beautification initiative aligns with the city's goals to support local businesses and improve neighborhood aesthetics, ultimately encouraging economic growth and a stronger sense of place and complement future street redevelopment.

Any items not directly listed in this estimate are to be considered excluded. The remaining balance will be due immediately upon completion. Any warranties offered are not valid unless balance is paid in full.

Color Matching: For shingle repairs and any color-related work, we cannot guarantee an exact color match due to the fading of older materials against newer ones. If the original material is discontinued or not available, we will attempt to match the color to the closest available option. Our team will do its best to achieve a close match, but slight variations may occur.

Exclusions: Any items or services not directly listed in this estimate are to be considered excluded from the scope of work. This includes, but is not limited to, additional repairs, modifications, or enhancements not specified in the line items above.

Financial Terms: A minimum deposit of at least 30% is required before any work can begin. A 35% progress payment will be required once work has commenced. The remaining balance of 35% will be due immediately upon completion. Any warranties offered are not valid unless the balance is paid in full.

Price Variability: Please note, quoted prices may change up to the start of installation, due to labor, material costs, etc. If the work scope increases due to code requirements, unexpected damages, or repairs, a separate change order requiring your approval will be issued before work starts or continues. By using our services, you acknowledge potential price changes and additional costs. We commit to clear communication throughout this process.

Changes in Services: Any changes in the specifications, quantities, schedule, or other aspects of the services requested or approved by you must be accepted in writing to become binding. Changes that are not documented in writing will not be considered valid. Please note that any approved changes may result in additional or increased charges. By approving changes, you agree to pay the associated increased charges promptly. It is essential to communicate any proposed changes promptly to ensure a clear understanding of the impact on project timelines and costs.
