Dear Ms Hensley

There is an RV parked with recent plumbing/electric put in place in front of Keller Harvel Elementary School.

His property has been the subject of various failed businesses over the last few years. A horse business went up and lights glaring on property very late at night with a lot of foot traffic.

Now the current owner has parked an Rv on site of property with someone living in it in violation of city code requiring concrete pad and submitted a special use permit for a "temporary" pole carport at 608 Norma Lane.

This devalues the homes in the area. It also is not harmonious with the surrounding neighborhood. The nature and use is not appropriate in the immediate area. Additionally, the elderly neighbor has his house for sale and this will not help him sell it.

How do I get this email to the appropriate parties and the planning and zoning committee. Your email was the only one I could find associated with this committee.

Thanks
