

Narrative Letter: Proposed Use & Business Overview

Brandie Owen

Regional Director

Baylor Scott & White Rehabilitation Services

Date: 2/19/26

I am writing to provide a narrative description of the proposed use for the new Baylor Scott & White Rehabilitation Services location, along with an overview of our existing operations and future plans. This information is intended to support your review and ensure full clarity regarding the nature of the services we will provide at the new site.

Business Overview

Baylor Scott & White Rehabilitation Services currently operates a Physical Therapy clinic in Keller, Texas, where we provide a wide range of outpatient rehabilitation services. Due to the limited square footage of our existing location, our ability to expand services and accommodate community needs has become increasingly constrained.

To better serve patients and support local healthcare demands, we are proposing to open a new clinic location. The expanded space will allow us to enhance our footprint, increase patient capacity, and broaden our service offerings. Notably, this includes return-to-sport rehabilitation and performance services, which are currently limited by space constraints at our Keller facility.

Proposed Use of the New Property

The proposed site will operate as an outpatient Physical Therapy clinic providing evaluation, treatment, and rehabilitative care.

Primary activities conducted on-site will include:

- Physical therapy examinations and individualized treatment
- Therapeutic exercise and functional training
- Return-to-sport programs and performance-based rehabilitation
- Injury prevention education
- Patient consultations and follow-up visits

Operational Details

- **Hours of Operation:**

- **Monday–Thursday:** 7:00 AM – 7:00 PM
- **Friday:** 7:00 AM – 2:00 PM
- *Potential future expansion* may include extended Friday hours and/or limited Saturday hours based on patient demand and community needs.

- **Staffing:**

The clinic will have **4 to 8 employees** on-site during operating hours. This includes licensed physical therapists, physical therapist assistants and front office staff.

- **Parking & Access:**

Parking needs are minimal and easily accommodated within standard medical-office allocations. Typical patient flow is steady but controlled through scheduled appointments, which helps maintain consistent traffic without spikes or congestion.

- **Deliveries:**

Deliveries to the clinic are minimal and generally limited to standard medical supplies and office materials via standard parcel carriers during normal business hours.

Community Impact

The new location will allow Baylor Scott & White Rehabilitation Services to provide enhanced access to high-quality rehabilitative care. By expanding our footprint, we aim to:

- Reduce wait times
- Increase specialized service availability
- Support athletes with return-to-sport programming
- Address broader community health and mobility needs

We are committed to operating responsibly, maintaining a professional healthcare environment, and complying with all local regulations, zoning requirements, and safety guidelines.

Thank you for taking the time to review this narrative summary. Should you require additional documentation, clarification, or supporting materials, please feel free to contact us. We appreciate your consideration and look forward to contributing positively to the community through the expansion of our rehabilitation services.
