Item G-1

Background:

In November 2024, a Stop Work Order was issued to the property for partial construction of an accessory structure without a permit.

In January 2025, the Applicant submitted a building permit for the structure, and it was determined that SUP approval is required. The SUP requested is to allow the total square-footage of all accessory structures on the property to exceed 50% of the square-footage of the existing home.

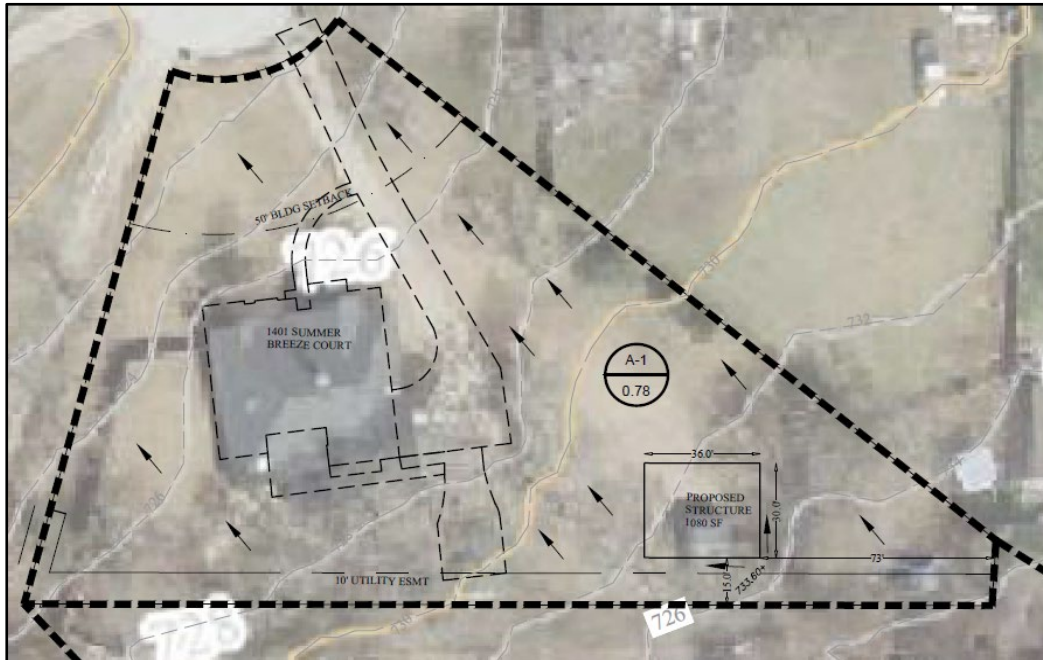

The Applicant requests this SUP with a variance to complete construction on an approximately 1,080 square-foot detached accessory structure to be used for storage, boat coverage, and to protect the existing well.

Item G-1

Site Plan

The structure is located behind the main home, approximately 10 feet north from the south property line, which will encroach the rear setback by 5 feet.

 Approx. location

Item G-1

Existing Structures:

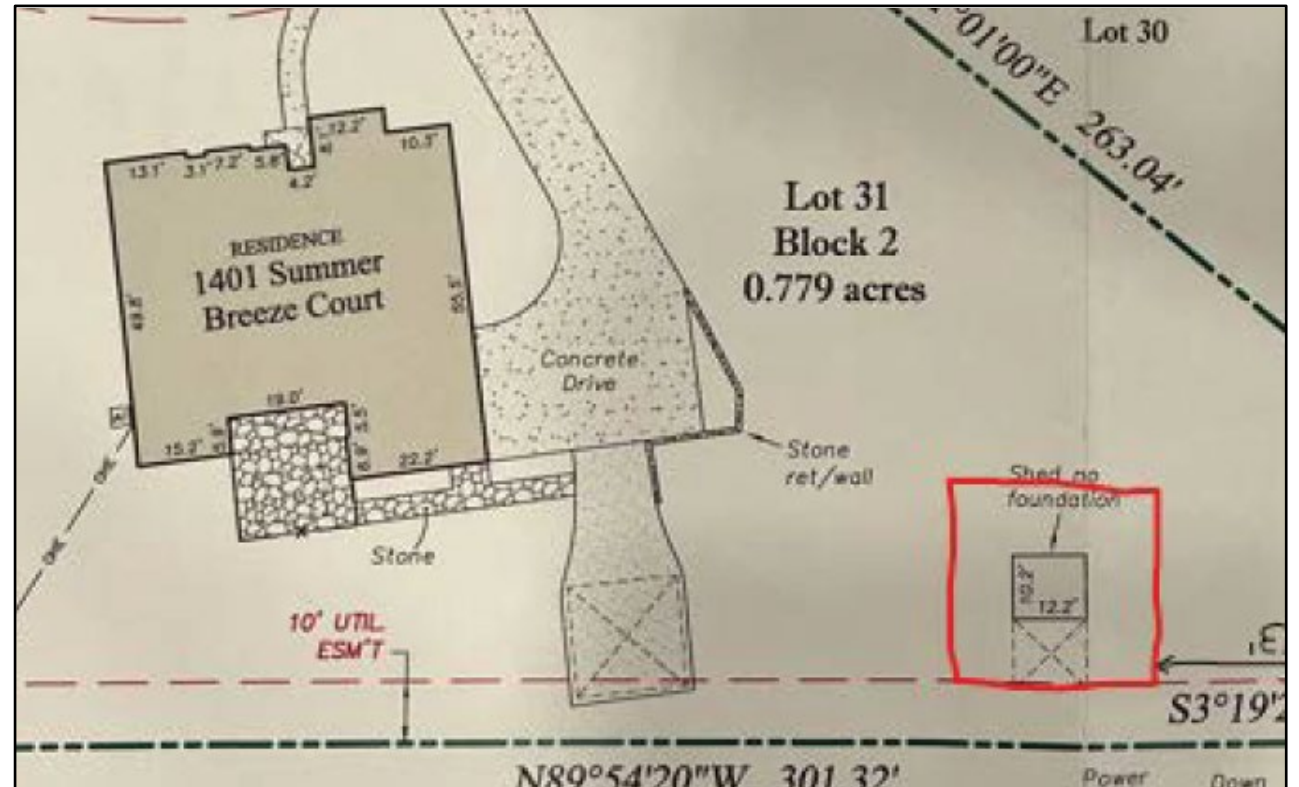

According to the Applicant and the Tarrant Appraisal District, the main home was built in 1985 and is approximately 2,323 square-feet.

There are two existing detached accessory structures on the 0.91-acre property:

1. A well shed, that will be removed if this SUP request is approved.
2. Detached carport (289 square-feet)

The UDC states that the combined area of all accessory buildings on a lot shall be less than 50% of the main structure, unless approved by an SUP.

If the SUP is approved, the combined square-footage of accessory structures on the property will be 1,369 square-feet, which is more than 50% of the main structure.

Item G-1

Elevations

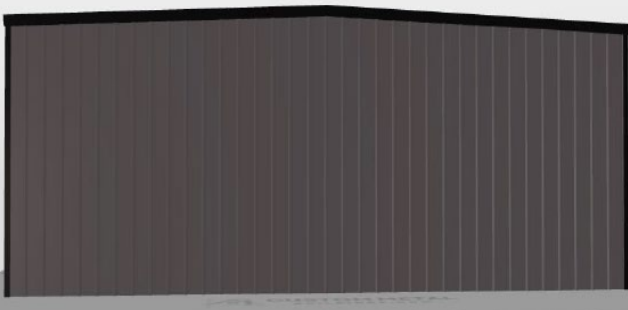

The proposed structure will be composed of metal. The average height of the structure will be 13 feet at roof ridge, which will meet the UDC maximum average height allowed by right.
