Justification for Specific Use Permit:

A detailed letter of justification and/or exhibits shall accompany this application.

Dear City of Keller,

I would like to extend the duration of my SUP timeframe another 10 months in order to complete the construction of my home and move into it. We were given 18 months to complete the architectural, engineering, and construction of our new home plus move into our new home and demolish our old home. Due a four-month delay in receiving a building permit, delays from our sub-contractors due to supply chain issues and labor shortages, we now expect to finish the home between August and September. We would like 6 months to move our family of 6 into our new home from our current home before the demolition. The total addition of time would be 10 months.

Thank you!

Sincerely,
