## Background:

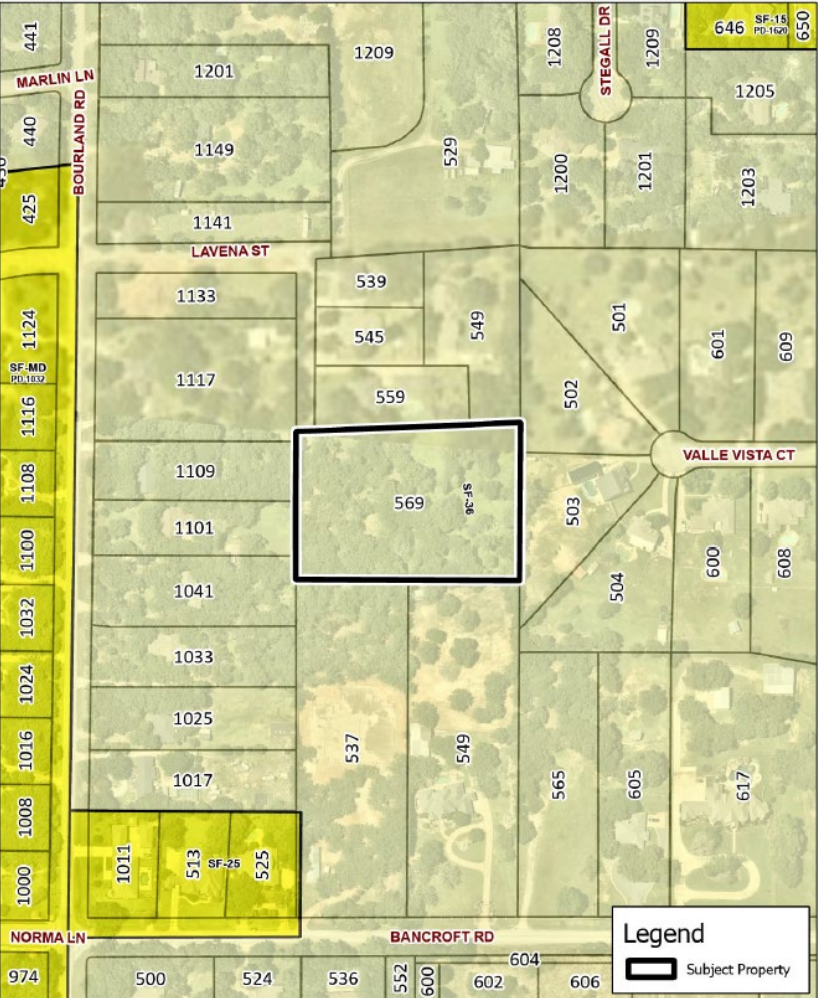

- The purpose of this plat is to subdivide an existing 2.774-acre tract of land into two single-family lots.
- Staff approved the plat on May 29, 2024, but it has not been recorded with the county.
- Shortly after city approval of the plat, the Applicant asked about forgoing the requirement to construct the access easement and hammerhead drive.
- To allow the Applicant to build a home on Lot 1 without constructing the access and fire apparatus turnaround requires approval of two variances.

Section 2.07 (A)(2) of the UDC states that when considering a Final Plat with variances, the City Council shall consider the following factors:

- a. That there are special circumstances or conditions affecting the land involved such that the strict application of the provisions of this Code would deprive the applicant of the reasonable use of his land.
- b. That the granting of the variance will not be detrimental to the public health, safety or welfare, or injurious to other properties in the area.
- c. That the granting of the variance will not have the effect of preventing the orderly subdivision of other lands in the area in accordance with the provisions of this Code.
- d. That the granting of the variance will not constitute a violation of any other valid ordinance of the City of Keller.
- e. That strict compliance with the regulations, and/or that the purpose of the regulations will be served to a greater extent by the alternative proposal.
