D. WORK SESSION

1. [Budget Strategic Planning – Water and Wastewater and Drainage Fund Summaries & CIP](#)

City Manager Aaron Rector presented the City's Five-Year Capital Improvement Plan (CIP), focusing on infrastructure investments across street, park, facility, and utility systems. He reviewed the outlook for debt issuance, including a projected \$20.5 million in Certificates of Obligation over the next five years, with repayment extending through FY2050. Rector then provided detailed information on water, wastewater, and drainage projects, emphasizing timeline planning, funding allocations, and priority upgrades tied to the enterprise fund strategy.

2. [Sales Tax Allocation Analysis](#)

Management Analysis Lupe Orozco led a presentation on the City's sales tax structure and potential reallocations. She explained that Keller receives 2% of the total 8.25% sales and use tax and suggested shifting certain General Fund expenses to special purpose districts. Recommendations included reallocating approximately \$1 million in Fire Department expenses to the Fire Control, Prevention, and Emergency Medical Services District; \$230,000 in software costs to the General Fund; and \$480,000 in Parks-related expenses to the Keller Development Corporation (KDC). She also noted that KCCPD debt is anticipated to be paid off in 2027, which may free up an estimated \$525,000 annually. Future legislative changes and potential ballot initiatives were also discussed as part of broader funding strategies.

3. [Capital Improvement Projects Update](#)

Public Works Director Alonzo Liñán provided an update on active capital improvement projects. His report included project status summaries across various stages-from design through construction-for drainage, street repairs, sidewalks, utility upgrades, and city facility enhancements. Notable updates included the nearing completion of the Whitley Elevated Storage Tank rehabilitation, sanitary sewer projects going to bid, and sidewalk repairs scheduled for 2025.
