**Re: *Oncor Kingsridge Substation  
Letter of Intent – SUP Submittal***

The proposed project includes a substation expansion of the existing Oncor substation located at 851 Chisolm Trail in the City of Keller. Staff has determined that this expansion will require a SUP for this property.

The subject property contains an existing electrical substation and is 9.31 acres with Chisolm Trail to the west, vacant land to the north and Union Pacific Railroad to the east. Adjacent properties to this site include a vacant commercial zoned property to the north and the High Chaparral subdivision to the west.

The substation expansion will include an 195 ft x 354 ft pad that will extend off the existing substation pad and will use the existing 2 driveways off Chisolm Trail. The substation expansion will be protected by extending the existing masonry wall along the west, south, and east sides. The substation will consist of electrical structures one 864 sf prefabricated metal building that is uninhabitable and used for operation of the structures onsite. No water or sewer service will be required. Traffic impact will be negligible for this project since the proposed equipment will be operated remotely.

Please contact me at (972.385.3500) or [REDACTED] should you have any questions or need any additional information.

Sincerely,

Rob Myers, P.E.  
Associate
