March 18, 2025

Citizens of Keller, Honorable Mayor Armin Mizani,
Members of the City Council and City Manager
City of Keller, Texas:

The Annual Comprehensive Financial Report for the City of Keller, Texas (the City) for the fiscal year that ended September 30, 2024, is hereby submitted. Article VII, Section 8.15 of the Charter of the City of Keller requires an annual audit of all accounts of the City by an independent certified public accountant, selected by the City Council. This report is intended to meet that requirement, and the independent auditor's report has been included in this report. This report was prepared through the cooperative efforts of the City's Finance Department and independent auditors. The purpose of the report is to provide the City Council, management, staff, citizens, bondholders, and other interested parties with detailed information concerning the financial condition and activities of the City.

Responsibility for the accuracy and reliability of the presented data in this report, completeness and fairness of this report, and all disclosures, rests with City management. The City has established and maintains a system of internal accounting controls designed in part to provide a reasonable assurance that assets are safeguarded against loss, theft, or unauthorized use and that financial records can be relied upon to produce financial statements in accordance with generally accepted accounting principles (GAAP). The concept of reasonable assurance recognizes that the cost of maintaining the system of internal accounting controls should not exceed the benefits likely to be derived.

We believe the data, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the City as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs have been included. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Whitley Penn, L.L.P., Certified Public Accountants, have issued an unqualified ("clean") opinion on the City's financial statements for the fiscal year ended September 30, 2024. The independent auditor's report is located at the front of the financial section of this report.

1100 Bear Creek Parkway • P.O. BOX 770 • KELLER, TEXAS 76244 • (817) 743-4000 • FAX (817) 743-4190

City Profile

The City was incorporated on November 16, 1955, under the general laws of the State of Texas, and the current home-rule charter was approved by the voters in 1982 and most recently amended in 2010. The City operates under the Council-Manager form of government. The Keller City Council is composed of a Mayor and six Council members in places designated as 1 through 6, all elected at-large by registered voters within the city limits of Keller. The Mayor and all Council members are elected for staggered three-year terms. The Mayor and City Council members, places 5 and 6, were elected for the initial three-year term in 2023 (terms expire May 2026). City Council members, places 1 and 2, were elected in 2024 (terms expire May 2027), Council place 3 was elected in 2024 by Special Election (term expires May 2025) and Place 4 was elected in 2022 (terms expire May 2025). Under the provisions of the City Charter, and subject only to the limitations imposed by the Texas Constitution, State law and the City Charter, the City Council enacts local legislation, adopts the annual operating budget and sets policy. The City Manager, appointed by the City Council, is responsible to the Council for proper administration of the City's daily affairs and appointment of heads of the various departments.

Keller is regularly named among the best places to live in the country. Recent accolades have included mentions as one of the "Best Small Cities in America" and among the "Top 10 Places to Live in Texas" and "Best Places to Raise a Family in Texas." In 2021, Congresswoman Beth Van Duyne recognized Keller's efforts in becoming Texas's Most Family Friendly City, reading a list of community accomplishments into the Congressional Record. Other recent recognitions include:

- Best Small Cities in America, WalletHub
- Safest Cities in America, Neighborhood Scout
- Top 50 Safest Cities in the U.S., SoFi
- Best Places to Raise a Family in Texas, Niche
- Top 10 Best Places to Live in Texas, HomeSnacks
- Places with the Best Public Schools in Texas, Niche
- Top 10 Safest Cities in Texas, Ramsey Solutions
- Best Suburbs to Live in Texas, Niche
- Texas's 50 Safest Cities, Safewise
- Platinum-Level Scenic City, Scenic Texas
- Tree City USA, Arbor Day Foundation

Some of the items that contributed to these rankings include our extremely low crime rate, an excellent park and trail system, diverse and affordable housing opportunities, and an overall high quality of life. This ranking reflects the dynamic community that Keller has become and its premier location in the heart of the DFW Metroplex. Keller is approximately midway between the Dallas/Fort Worth International and Alliance airports, both major employers for our community. The city is traversed by several major traffic corridors, including US Highway 377 (US 377) and Farm-to-Market Road 1709 (FM 1709). The city's quality school system, residential growth rate, business-friendly atmosphere and low taxes make Keller an inviting destination for new commercial development projects.

The City of Keller is in Northeast Tarrant County, Texas, approximately 10 miles north of Fort Worth on US 377, and 25 miles northwest of downtown Dallas. It is part of the 12-county "Metroplex" of North Central Texas, which includes the cities of Fort Worth and Dallas as well as surrounding communities, with an estimated population in the 12 county MPA exceeding 8.481 million in January 2024. The city limits of Keller currently encompass approximately 19 square miles.

The City provides a full range of municipal services, including general government, public safety (police and fire), streets, parks and recreation, community development, planning and zoning, code enforcement, public library, and business-type activities such as water, sewer and drainage utilities. Sanitation collection services are provided through a private contractor; customers contract through the City, with collection fees added to their municipal water, sewer and drainage utility bills.

Local Economy

Keller, part of the Dallas/Fort Worth Metroplex, maintains a strong economy and is consistently ranked among the best places to call home in Texas. A conservative personal and corporate tax climate, excellent schools, favorable right to work laws and an ongoing commitment to business make this community and the State of Texas attractive both to businesses looking to relocate and those starting new.

According to the Texas Workforce Commission, the City's civilian labor force was 24,486 in calendar year 2022, compared to a total civilian labor force for Tarrant County of 1,140,773. Keller's unemployment rate in calendar year 2022 was 3.1%, compared to the Tarrant County rate of 3.6%, a statewide rate of 3.9% and a nationwide rate of 3.6%. The unemployment rates are not seasonally adjusted.

The City continues to experience a slight increase in population. Official Census reported population figures of 27,345 for 2000, 39,627 for 2010, and 45,776 for the 2020. The January 2024 population estimate was 47,476, representing an increase of 1,700 (3.7%) since the 2020 Census. The following table presents Keller's official Census population since 1970, as well as the current year estimated population.

	Population	Increase (Decrease)	Percent Change
1970 Census	1,474	NA	NA
1980 Census	4,156	2,682	182.0%
1990 Census	13,683	9,527	229.2%
2000 Census	27,345	13,662	99.8%
2010 Census	39,627	12,282	44.9%
2020 Census	45,776	6,149	15.5%
2024 Estimate	47,476	1,700	3.7%

Since 1970, the total population increase has exceeded 46,002. This increasing population trend is anticipated to persist for several years, although at a slower pace. Tarrant County has experienced similar growth during the last 40 years, increasing from 715,587 in 1970 to 2,110,640 in 2020, and an increase of more than 195%. According to the North Central Texas Council of Governments' population projections, the population of Tarrant County in 2024 is anticipated to be 2,224,584, an increase of 113,944 or 5.4% since the 2020 Census.

Another factor in measuring the local economy is its overall appraised value. Since 2014, the appraised value of property within Keller has more than doubled. Most of the increase has been the result of new residential development. Overall appraised values provide a better indication of new development than do taxable values, since taxable values are derived after deducting the various allowable exemptions. For Keller, this growth trend moderated in recent years. The following table provides the total appraised values of the City of Keller since 2013.

Year Ended September 30	Appraised Value (000's)	Percent Change
2014	4,557,288.9	6.3%
2015	4,731,833.0	3.8%
2016	5,368,009.1	13.4%
2017	5,627,823.2	4.8%
2018	6,213,765.3	10.4%
2019	6,881,693.8	10.7%
2020	7,401,205.8	7.5%
2021	7,596,486.5	2.6%
2022	7,905,891.8	4.1%
2023	8,786,627.8	11.1%
2024	9,843,740.6	12.0%

As shown, the rates of change in the City's total appraised value are continually growing, including a 12.0 percent increase in 2024 over prior year. The rates of increase in taxable values can impact the City's general fund operations significantly since property tax revenues comprise approximately 50% of the total revenues for the General Fund. City management continuously monitors local economic trends to maintain adequate fund balance reserve levels and to meet policy targets.

The City is approximately 85% developed and continues to grow primarily as a residential community. Most residents are employed by major companies located within a 15-mile radius of the City. Several manufacturing firms are in the Keller area, as well as a variety of commercial establishments, medical facilities, restaurants, retail shops and grocery stores. The City continues to encourage quality commercial growth, which will benefit the entire community.

The value of new construction is included in both market and net taxable values. The net taxable value of new construction for calendar year 2023 (FY 2023-24) was \$135.5 million, compared to \$70.4 million for calendar year 2022 (FY 2022-23).

The net assessed taxable value for calendar year 2023 (FY 2023-24) increased by 13.8% but the levy only increased by 0.2%. For the FY 2023-24, the City decreased the tax rate by \$0.04250/100 or 11.99% and is the largest tax mitigation in the City’s history. By comparison the calendar year 2022 (FY 2022-23) net taxable value increased by 12.2%. Even with the reduction, the FY 2023-24 budget met the goals of the City Council, maintained excellent services, and adhered to the financial/budget targets to ensure the fiscal stability of the City’s operations.

The expansion of retail within the city and increased on-line sales activity has resulted in increases in sales tax collections. Total sales tax collections in FY 2023-24 represent the largest amount in the City’s history, with collections totaling more than \$18.8 million; up from FY 2022-23 collections totaling \$18.7 million.

Long-term Financial Planning

The City maintains a five-year Capital Improvement Program (CIP). The CIP has been used exclusively as a planning tool, and therefore does not commit the City to any project or project funding. The intent of the CIP is to identify and prioritize specific capital improvements needed during the subsequent five years. The CIP is not a capital budget, and as such, only recommends projects, project costs and the proposed means of financing improvements. Recommended improvements are not approved until official action has been taken by the City Council to authorize funding for the improvement.

The five-year capital improvements program (CIP) for fiscal years 2023-24 through 2027-28 was developed by City staff and reviewed and adopted by the City Council as a part of the fiscal year 2023-24 budget. The total five-year program for FY 2023-24 identified \$109.4 million of proposed improvements.

When considering future financial impacts on operations resulting from issuing debt obligations for capital improvements, the Finance Department prepares an internal five-year financial forecast for the General and Debt Service Funds. The forecast is also used as an informational planning tool for the City Council.

Relevant Financial Policies

The City has strong financial management policies that provide the basis for the City’s financial operations.

The City has 22 total funds and 16 are budgeted funds. Below is a breakdown of funds by type, total vs. budgeted:

Fund Type	Fund Category	# of Funds	# Budgeted
Governmental	General	1	1
Governmental	Special Revenue	10	5
Governmental	Debt Fund	1	1
Governmental	Capital Fund	4	2
Proprietary	Enterprise Fund	3	3
Proprietary	Internal Service	3	3

The unassigned fund balance in the General Fund (representing 85% of total general Fund expenditures) currently exceeds the requirements of the City’s Financial Management Policies adopted by the City Council for budgetary and planning purposes (i.e., 40% of General Fund expenditures). In addition to providing financial stability and sustainability during difficult economic times, the City may use available fund balance reserves to fund one-time, non-recurring projects or expenditures.

In December 2008, the City Council adopted a Financial Management Contingency Plan. The primary purpose of the Plan is to guide planning efforts for City management and is intended to assist in budget balancing strategies during periods of economic uncertainty. During fiscal year 2023-24, no specific provisions of the Contingency Plan were enacted.

In May 2012, the City's financial management policies were amended to increase the required unassigned fund balance in the General Fund from 60 to 70 days of expenditures. In May 2013, the City Council adopted an official GASB 54 fund balance policy. In July 2016, the City Council adopted revisions to the financial management policies which included creating a General Fund minimum of 19.2% (70 days) and a maximum fund balance of 50% (182 days). In November 2019, the City Council adopted revisions to the financial management policies which included creating a General Fund minimum of 25.0% and a maximum fund balance of 50%. In September 2021, the City Council adopted revisions to the financial management policies which included creating a General Fund minimum of 35.0% and a maximum fund balance of 50%. In September 2022, the City Council adopted the financial management policies and reaffirmed the General Fund minimum of 35.0% and a maximum fund balance of 50%. In September 2023, the City Council adopted the financial management policies and reaffirmed the General Fund minimum of 40.0% and a maximum fund balance of 60.0%. In September 2024, the City Council adopted the financial management policies and reaffirmed the General Fund minimum of 40.0% and a maximum fund balance of 65.0%.

Major Initiatives

During FY 2021-22, City Council approved a construction bid to reconstruct Bates Street and a new pedestrian crossing on Hwy. 377, which were part of a \$16.3 million project to jumpstart the revitalization of Old Town East and connect it to Old Town West. During FY 2022-23, the Bates Festival Street and Hwy. 377 pedestrian crossing were completed.

The Elm Street engineering and design is nearly complete, and City Council has issued \$15 million in certificates of obligation funded through ad valorem for the project. Construction on Elm Street will begin in the spring of FY 2024-25.

During FY 2023-24, council also issued \$28 million in certificates of obligation for the Keller Sports Park Revitalization project, which will be funded through the Keller Development Corporation sales tax option. The estimated \$34 million project will be adding a new grass multi-purpose field with an associated parking lot; replacing one grass soccer field with synthetic turf; constructing two new lighted baseball fields; renovating existing multi-purpose and baseball fields; constructing new restrooms, storage and concession buildings; constructing a new field house and meeting rooms, renovating existing restroom/concession buildings; installing an interactive water feature, constructing new shade structures; and enhancing landscaping, lighting, fencing, backstops and netting throughout the park.

In the Water-Wastewater Fund, the rehabilitation of Pearson Ground Storage Tanks #1 and #2 began during FY 2022-23 and was completed during FY 2023-24. During FY 2023-24, design also began for rehabilitating the Shady Lane water tank, with construction to be completed within FY 2024-25. The tank rehabilitation projects will be funded with American Rescue Plan Act funds for approximately \$2.7 million.

Accounting System and Budgetary Control

The annual budget of the City serves as the foundation for its financial planning and control. The budget is proposed by the City Manager and adopted by the City Council in accordance with policies and procedures established by the City Charter, Council ordinances and policies. The budget is prepared and presented by fund (e.g., general fund), department (e.g., police) or function (e.g., debt service), and major cost category (e.g., personnel services). The budgetary process begins each year with the preparation of revenue estimates and budget instructions by the City's Finance Department staff, and expenditure estimates and requests by each City department. Estimates and requests are reviewed by the City Manager and evaluated within the total financial framework of the City. The City Manager makes final decisions regarding the budget recommendations that are submitted to the City Council. The City Charter requires that the City Manager's proposed budget be filed with the City Secretary no later than August 15. The City Manager's proposed budget is reviewed by the City Council and followed by a final public review process, including a required public hearing prior to budget adoption. The City Charter requires adoption of the City budget no later than the twenty-seventh (27) day of the last month of the fiscal year.

Budgetary reporting is provided at the department level within the individual fund. The legal level of control for budgeted expenditures is at the fund level. Transfers of budget appropriations within funds may occur with the approval of the City Manager provided there is no increase in overall expenditures. Transfers of budget appropriations between funds, as well as any increase in total appropriations, require a formal budget amendment adopted by the City Council. Unless otherwise noted, except for capital projects funds, all appropriations lapse at year-end and excess funds become available for re-appropriation in the subsequent year. By policy, all encumbrances related to operating funds end at the end of the fiscal

year, unless re-appropriated in the budget adoption. In addition, the financial policies placed capital projects and grants on a project life budget, rather than annual, and therefore encumbrances related to capital projects and grants are appropriated until related funds are spent or end of the project, whichever occurs first.

Budget amendments are presented to Council and adopted in accordance of the financial policies when budget adjustments are required. The amendments represent required budget adjustments determined either thru budget monitoring or required project funding changes. By Charter, budget amendments require a notice and public hearing similar to the adoption of the budget prior to approval by City Council.

Budget to actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented as required supplementary information. For governmental funds other than the general fund, with appropriated annual budgets, this comparison is presented in the major and non-major governmental fund sections of this report. All applicable financial targets were met or exceeded. Additional information regarding the annual budget is provided in the MD&A.

Finance Committee

The City Council formed a Finance Committee as a sub-committee of the City Council. The committee is composed of the Mayor, two Council members (appointed by the Mayor), the City Manager, and the Director of Administrative Services/Finance. The committee functions as an audit committee and reviews all recommendations made by the independent auditors. The committee also serves as the City's investment committee, and reviews other periodic investment and financial reports.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its annual comprehensive financial report for the fiscal year ended that September 30, 2023; a reproduction of the certificate accompanies this report.

The City has received a Certificate of Achievement for thirty-four (35) consecutive fiscal years (FY1988-89 through FY 2022-23). To be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized annual comprehensive financial report (ACFR), the contents of which must conform to program standards. The ACFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for the period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition to the Certificate of Achievement, the City also received GFOA's Distinguished Budget Presentation Award for its FY 2023-24 annual budget document. To qualify for the award, the City's budget document was judged to be proficient in several categories, including policy documentation, financial planning and as an operations guide. The City has received the award for twenty-seven (27) consecutive fiscal years (FY1996-97 through FY2023-24). Recognition by GFOA as evidenced by these two awards is verification of the Finance department's dedication to producing documents that effectively communicate the City's financial condition.

The City has received five of six Transparency Stars from the Texas State Comptroller. The Traditional Finance Star requires providing information such as annual budgets, comprehensive annual financial reports, and check registers. The Contract and Procurement Star requires providing information such as annual bid solicited and contracts awarded. The Public Pension Star requires providing information such as retirement funding ratio, actuarially determined contribution rate, and unfunded actuarial accrued liability. The Economic Development Star requires providing information such as current abatements, 380 agreements, reimbursements/rebates, and Keller tax abatement guidelines. The Debt Obligations Star requires providing information such as total outstanding debt obligations, tax-supported debt as total and per capita, revenue supported debt,

and historical bond election information. As part of the City's goal of financial transparency, the City will continue applying for Transparency Stars until six stars are received.

The City's bonds are rated by both Moody's and Standard and Poor's. Moody's bond rating is Aaa, while Standard and Poor's bond rating is AAA. Both rating categories classify the City's debt obligations as high-quality investment grade. In June 2019, Moody's bond rating was upgraded to Aaa from Aa1 and Standard and Poor's confirmed their rating of AAA. In Spring 2024, Moody's confirmed their bond rating of Aaa and Standard and Poor's confirmed their rating of AAA.

The preparation of this report could not be accomplished without the dedicated services of the entire staff of the Finance Department. Many individuals devoted extra hours and exhibited dedicated effort in ensuring the accuracy and timeliness of this report. Appreciation is expressed to City employees throughout the organization, especially those responsible for the maintenance of records upon which this report is based. Acknowledgment is also given to representatives of Weaver, Certified Public Accountants, for their dedicated assistance in producing this report.

Finally, our appreciation is extended to the Mayor, City Council, and all of the Finance Department staff for their interest and support in planning and conducting the financial operations of the City of Keller in a responsible and progressive manner.

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and
Members of City Council
City of Keller, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Keller, Texas, (the City), as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, budgetary comparison information, pension information, and other-post employment benefit information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

To the Honorable Mayor and
Members of City Council

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and budgetary comparison schedules, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section, statistical section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 18, 2025 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Fort Worth, Texas

CITY OF KELLER, TEXAS

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Keller, Texas (the "City") we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

Financial Highlights

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the fiscal year ended September 30, 2024, by \$336,140,080 (net position). Of this amount, \$93,150,652 (unrestricted portion of net position) may be used to meet the government's ongoing obligations to citizens and creditors. Included in the unrestricted portion of net position are monies from all the City's various funds which are not restricted for other purposes.
- The City's overall total net position increased by \$25,227,486. The increase is primarily due to higher interest earnings, and increased charges for services such as ambulance services, building permits, and Court Fines & Forfeitures. Additionally, there was an increase in internal governmental revenue from regional services, higher sales and other taxes, and grant revenue recognition. This was partly offset by a decrease in overall expenses.
- Net position in governmental activities was \$212,010,580 at September 30, 2024, an increase of \$16,038,256 over prior fiscal year. The increase is attributable to higher interest earnings, increased revenue from ambulance services, building permits, court fines, regional services, donations, sales/other taxes, and grant revenue recognition, along with a decrease in overall expenses.
- Net position in the business-type activities was \$124,129,500 at September 30, 2024, an increase of \$9,189,230 over prior fiscal year. The increase is attributable to a significant increase in interest earnings, charges for services, grant revenue, and capital assets, along with a decrease in expenses, deferred outflows, bonds payable (due to retirement of the 2012 general Obligation), and SBITA liability.
- The City's governmental funds reported combined ending fund balances of \$117,066,667, an increase of \$30,447,723 in comparison to the previous year.
- The unassigned portion of the General Fund fund balance at the end of the year was \$34,389,057 or 85% of total General Fund expenditures. This includes the 25% of General Fund expenditures which is required to be held in General Fund fund balance per the City Council approved Financial Management Policies.
- Total bonded debt increased by \$38.9 million during the fiscal year due to the effect of payments on debt and issuance of bonds during the year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers manner similar to a private-sector business. Two statements, e Statement of Net Position and the Statement of Activities, are utilized to provide this financial overview.

The Statement of Net Position presents information on all of the City's assets and liabilities deferred inflows and outflows of resources with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

CITY OF KELLER, TEXAS

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flow. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide statements distinguish between governmental activities and business-type activities. Governmental activities basically account for those activities supported by taxes and intergovernmental revenues. On the other hand, business-type activities are basically supported by user fees and charges. Most City services are reported in governmental activities while business-type activities are reported in the Enterprise Funds.

The City's internal service fund assets and liabilities are reported within Governmental activities. A portion of the City's internal service fund activities is allocated to business-type activities. This allocation is based on the services that the internal service fund provides to the Enterprise Funds.

Fund financial statements. The City, like other state and local governments, utilizes fund accounting to ensure and demonstrate compliance with finance-related legal requirements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains 15 individual governmental funds. Information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund, the General Obligation Debt Service Fund, Crime Control Prevention District, Capital Projects, and Parks Capital Improvements Funds. Fund. Data from the other non-major funds are also combined and reported in a single column. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary funds. The City maintains two types of proprietary funds, enterprise and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water and wastewater operations, drainage utility operations, and aquatics center activity. The City uses internal service funds to account for maintenance and replacement costs of information technology, and vehicles, and equipment and health services. These services benefit both the governmental and business-type activity functions and therefore, the internal service fund allocates a portion of its activities to the business-type activities.

Proprietary funds financial statements provide the same type of information as the government-wide financial statements, only in more detail.

CITY OF KELLER, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Notes to the financial statements. The notes provide additional information that is essential to gain a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. Required supplementary information can be found after the notes to the financial statements.

Government-Wide Financial Analysis

At the end of fiscal year 2024, the City's net position totaled \$336,140,080. This analysis focuses on the net position (Table 1) and changes in net position (Table 2).

Net Position - The largest portion of the City's net position, \$210,255,260, or 62%, reflects its net investment in capital assets (land, buildings, improvements other than buildings, subscription assets, machinery and equipment, construction in progress), less any related debt used to acquire those assets that is still outstanding. The City uses these assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the City reports its capital assets net of related debt, the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position, \$32,734,168, or 10% represents resources that are subject to external restrictions on how they may be used. The unrestricted portion of net position which is \$93,150,652, or 28%, may be used to meet the government's ongoing obligations to citizens and creditors.

Changes in Net Position. The net position of the City increased by \$25,227,486 for the fiscal year ended September 30,2024.

CITY OF KELLER, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Governmental Activities. Governmental activities increased the City's net position by \$16,038,256 from the prior year. This increase is primarily attributable to higher interest earnings, revenue from ambulance services, building permits, court fines, regional services, donations, sales/other taxes, and grant revenue, along with a decrease overall in expenses..

Business-type Activities. Business-type activities net position increased by \$9,189,230 over the prior year. This increase is primarily attributable to higher interest earnings, charges for services, grant revenue, and capital assets, along with a decrease in expenses, deferred outflows, bonds payable (due to retirement of the 2012 general Obligation), and SBITA liability.

Fund Financial Analysis

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balance of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of year-end of the current fiscal year, the City's governmental funds reported combined fund balances of \$117,066,667.

CITY OF KELLER, TEXAS

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

The General Fund is the main operating fund of the City. At the end of the current fiscal year, unassigned fund balance was \$34,389,057. There was an increase in General Fund balance of \$4,246,382 during the current fiscal year. This increase is primarily attributable to a significant increase in interest earnings, grant revenue recognition, sales/other tax and fees.

The General Obligation Debt Service Fund had an increase of \$1,279,950 in fund balance. These funds are specifically restricted for the payment of debt service.

The Crime Control Prevention District Fund decreased \$4,152,403 due to the construction of the Police Department renovation project and the purchase of capital equipment.

The Capital Projects Fund had an increase of \$25,292,691 in fund balance primarily due to issuance of capital-related debt during the year.

The Parks Capital Improvements Fund had an increase in fund balance of \$4,813,782 due to the cash funding for the renovation of Keller Sports Park using KDC funds.

Nonmajor governmental funds' combined fund balances decreased \$1,032,679 which is primarily due to cash funding for the renovation of Keller Sports Park using KDC funds.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide statements, but in more detail.

The net position of the Water and Wastewater Utilities Fund at the end of the year was \$99,911,011. This represents an increase of \$9,956,924 which was the result of operating revenues exceeding operating expenses by \$5,405,837. This income is attributable to a significant increase in investment revenue, charges for service, grant revenues, and capital assets, along with an overall decrease in operating expenses, deferred outflows, bonds payable (due to the retirement of the 2012 General Obligation), and SBITA liability.

The net position of the Drainage Utility Fund at the end of the year was \$18,670,598. This represents a decrease of \$671,087 due primarily to increased spending on capital projects.

The proprietary funds also included a decrease in net position from the Recreation/Aquatic Center and an increase in internal service funds. The Recreation/Aquatic Center fund had a decrease of \$387,812 primarily due to lower revenue from recreation programs, group exercise, gym & facility rentals, concession sales, and grant funds. Expenses increased for personnel & part time wages, recreation & culture programs, birthday parties, travel, marketing, insurance, utilities, banking, building & equipment maintenance, janitorial services, and supplies. The internal service fund had an increase of \$3,105,415 primarily due to increase in miscellaneous operating revenue, investment and interest income, receipts from customers/users, asset sales, and inventories. Decrease in expenditures, including personnel wages, pension & OPEB liabilities, services & other expenses, goods & services, debt payments (principal & interest), and reductions in deferred outflows & inflows.

General Fund Budgetary Highlights. In FY2024, the General Fund expenditure budget was amended from an original budget of \$41.9 million to a final budget of \$41.8 million. Each year the City performs a mid-year review of the budget. If the City Manager determines that funds are available, certain amendments are proposed to the City Council for their review and approval.

In the General Fund, the actual revenue received in comparison to the final budget was greater by \$6.9 million. This positive variance is most noticeable in intergovernmental revenues with \$4.4 million over budget and investment earnings which were \$1.7 million over budget. General Fund expenditures were under budget by \$1.5 million prior to other financing sources/uses. This amount is attributable to public works and economic development being under budget by \$0.9 million and \$0.5 million, respectively.

CITY OF KELLER, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Capital Assets and Debt Administration

Capital Assets - The City's investment in capital assets for its governmental and business-type activities as of September 30, 2024, amounts to \$257.2 million (net of accumulated depreciation). The investment in capital assets includes land, buildings, improvements other than buildings, machinery and equipment, subscription assets, and construction in progress. The total increase in the City's investment in capital assets for the current year was approximately \$21.2 million.

The City continues to maintain favorable ratings from bond rating agencies. The current General Obligation, Combination Tax and Revenue Certificates of Obligation, and Revenue Bonds ratings are as follows.

	Moody's Investors Service	Standard & Poor's
General obligation bonds	Aaa	AAA
Certificates of obligation	Aaa	AAA

Additional information on the City's long-term debt can be found in Note 7 to the financial statements.

CITY OF KELLER, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Economic Factors and Next Year's Budgets and Rates

In the next year's adopted fiscal year (FY) 2024-25 budget, total operating revenues (including transfers-in) are \$107,152,938 which is an increase of \$3,786,005 (3.7%) from the final FY 2023-24 Budget and a decrease by \$331,279 (0.3%) from the FY 2023-24 year-end projections. The increase in revenues is mainly attributable to water-wastewater rate adjustments and interest income earnings. The largest single revenue source remains property tax at 22.9% which will increase by \$140,226 or 0.6% based upon adopting the no new revenue rate again for FY 2024-25. Certified taxable assessed valuations (after adjustments) increased by 7.5% compared to the prior year. Based upon the increased taxable valuations, the city reduced the tax rate to \$0.29112 per \$100 for FY 2024-25 from \$0.31200 per \$100 in order to remain at the no new revenue rate. The General Fund revenues (including transfers-in) are budgeted to increase by \$1,674,556 (3.8%) from the final FY 2023-24 Budget and a decrease by \$118,553 (0.3%) from the FY 2023-24 year-end projection, with general property taxes comprising about 44.6% of General Fund budgeted revenues and transfers-in. Growth in the General Fund revenue is mainly attributable to growth in interest income.

Sales tax is projected to stay the same from both FY 2023-24 budget and FY 2024-25 year-end projections as the city anticipates sales tax to stabilize. Prior years saw significant annual growth related to changes in State law regarding on-line sales tax. FY 2023-24 actuals reflects relatively flat growth from FY 2022-23 actuals compared to the prior years as the impacts have normalized. The City has anticipated the on-line sales tax to normalize and prepared forecasts accordingly.

The overall FY 2024-25 operating expenditure budget is \$114,795,525, which is an increase of \$3,921,780 or 3.5% from FY 2023-24. The budget includes one-time contractual costs of \$1,912,592 which is related to the purchase of new Public Works software. With the one-time software costs removed, the FY 2024-25 budget is an increase of \$2,761,320 or 2.5% from the FY 2023-24. The increase is mainly attributable to personnel increases and one-time capital expenditures.

General Fund expenditures for the 2023-24 adopted budget represents an increase of \$5,944,009 (13.4%) from the FY 2023-24 budget. The FY 2024-25 budget includes one-time expenditures of \$6,894,874 of which \$6,110,000 relates to cash-funding capital street improvements and \$386,850 relates to initial costs for a new public works software. The FY 2023-24 budget included one-time funding of \$2,666,971. With the one-time expenditures removed from FY 2023-24 and FY 2024-25, the adopted budget represents an increase of \$1,716,106 or 4.1% which is mainly attributable to personnel increases.

Conservative revenue and expenditure budgeting resulted in a balanced budget that meets the City Council goals and directions, continues to provide excellent service levels, and maintains ending fund balances as required by the city's financial policies. The FY 2024-25 estimated ending fund balance at September 30, 2025 is \$28,689,377 which equals 66.1% of on-going expenditures. The estimated fund balance is above the policy required minimum balance of 40.0% and the policy maximum of 65.0%. The City will be looking to further cash fund capital projects as a way to reduce the fund balance below the policy maximum.

The City is able to maintain its financial position because of having a stable tax and retail base which also allows the City to have a competitive tax rate. The City's property tax rate for FY 2024-25 again ranks as one of the lowest among neighboring Tarrant County area cities.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department, P.O. Box 770, Keller, Texas 76244-0770, call (817) 743-4025, or email at finance@CityofKeller.com.

CITY OF KELLER, TEXAS**Exhibit A-6**

**RECONCILIATION OF THE STATEMENT OF REVENUES , EXPENDITURES, AND
CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Year Ended September 30, 2024**

Amounts Reported for Governmental Activities in the Statement of Activities are Different because:

Net Change in Fund Balance-Total Governmental Funds.	\$ 30,447,723
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Excludes capital asset additions in the internal service fund.	32,308,247
Depreciation and amortization expense on capital assets is reported in the statement of activities but does not require the use of current financial resources. Therefore, depreciation and amortization expense is not reported as expenditures in the governmental funds. Excludes depreciation and amortization expense of from internal service fund.	(11,539,383)
Governmental funds report the proceeds from the sale of capital assets; however, the statement of activities reports the gain or loss on disposal. Therefore, the change in net position will differ from the change in fund balance by the net book value of the capital assets disposed.	(327,613)
Certain revenues in the government-wide statement of activities that do not provide current financial resources are not reported as revenue in the governmental funds.	(104,516)
Bond and other debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of bond and other debt principal is an expenditure in the governmental funds, but repayment reduces long-term liabilities in the Statement of Net Position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.	
Issuance of bonds	(39,025,000)
Premiums	(4,274,034)
Repayment of principal - bonds	5,140,000
Repayment of principal - SBITA liability	60,581
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.	
Amortization of premium on bonds	544,367
Amortization of deferred charges on refunding	(68,460)
Accrued interest	(211,155)
Changes in pension liabilities and related deferred outflows and inflows of resources	221,759
Changes in OPEB liabilities and related deferred outflows and inflows of resources	(3,820)
Compensated absences	55,350
Internal service funds are used by management to share the costs of capital assets to individual funds. This is the amount of change in net position allocated to governmental activities.

Note 1 - Summary of Significant Accounting Policies

The City of Keller (the City) was incorporated in 1955. The City operates under a Council-Manager form of government as a duly incorporated home rule charter approved in 1982. The City provides the following services: public safety (police and fire), streets, water, sewer and storm water drainage, public improvements, culture, planning and zoning, parks and recreation, and general administrative services.

The City reports in accordance with accounting principles generally accepted in the United States of America (GAAP) as established by the Governmental Accounting Standards Board (GASB) and the Financial Accounting Standards Board (FASB). The accounting and reporting framework and the more significant accounting principles and practices are discussed in subsequent sections of this Note. The remainder of the notes are organized to provide concise explanations, including required disclosures of budgetary matters, assets, liabilities, fund balance, revenues, expenditures/expenses, and other information considered important to gaining a clear picture of the City's financial activities for the fiscal year ended September 30, 2024.

A - Financial Statement Presentation

The basic financial statements are prepared in conformity with GASB Statement No. 34, which requires the government-wide financial statements to be prepared using the accrual basis of accounting and the economic resources measurement focus. Government-wide financial statements do not provide information by fund, but distinguish between the City's governmental activities, business-type activities and activities of its discretely presented component unit on the statement of net position and statement of activities. Significantly, the City's statement of net position includes both noncurrent assets and noncurrent liabilities of the City. In addition, the government-wide statement of activities reflects depreciation expenses on the City's capital assets, including infrastructure.

In addition to the government-wide financial statements, the City has prepared fund financial statements, which use the modified accrual basis of accounting and the current financial resources measurement focus for the governmental funds. The accrual basis of accounting is utilized by proprietary funds. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

The City also presents Management's Discussion and Analysis, which includes an analytical overview of the City's financial activities. In addition, a budgetary comparison schedule is presented that compares the original adopted and final amended General Fund budget with actual results.

B - Financial Reporting Entity

The City's basic financial statements include the accounts of all City operations. In evaluating how to define the government for financial reporting purposes, management has considered all entities for which the City is considered to be financially accountable. The City is a home-rule municipality governed by an elected Mayor and six-member City Council, who appoint a City Manager. As required by GAAP, these financial statements present the City and its component units, entities for which the City is considered to be financially accountable. All of the City's component units are presented as a blended component unit.

Blended Component Unit

Keller Development Corporation (KDC) – The City created the Keller Development Corporation for the purpose of implementing its Parks Master Plan and appointed a seven-member Board of Directors, four of whom are required to be members of the City Council. The remaining three members are residents of the City. All Board members are appointed by the City Council. KDC is authorized to sell bonds or other forms of indebtedness. In the event of dissolution of KDC, the assets of KDC will be distributed to the City.

Note 1 - Summary of Significant Accounting Policies (continued)

B - Financial Reporting Entity (continued)

Blended Component Unit (continued)

Since the KDC Board of Directors act primarily in an advisory role to the Keller City Council, who exercise the ultimate financial control over the recommendations of the KDC Board and there is either a financial benefit or burden relationship between the City and KDC, the financial information of KDC is blended as a governmental fund into the primary government.

Keller Crime Control Prevention District (KCCPD) – In accordance with Section 363 of the Texas Local Government Code, the City Council appointed a temporary KCCPD Board, who then developed and proposed a two-year financial plan to the residents of the City for a public vote. In November 2001, the residents of the City, by referendum, approved an additional three-eighths of one percent (0.375%) sales and use tax to be used for public safety crime control and prevention programs, including public safety equipment, and improvements to public safety facilities. Following voter approval of KCCPD, a Board of Directors was officially appointed by the City Council, and the two-year budget was then adopted by the Board and City Council. By statute, the life of KCCPD cannot exceed five years without re-authorization by another referendum. The additional sales tax became effective in April 2002. The tax was authorized for an initial period of five years. In May 2006, voters re-authorized the tax for an additional period of 15 years. In November 2007, voters authorized a reduction in the rate from three-eighths of one percent (0.375%) to one-quarter of one percent (0.25%).

Since the KCCPD Board acts primarily in an advisory role to the Keller City Council, who exercises the ultimate financial control over the recommendations of the KCCPD Board and the KCCPD provides services entirely, or almost entirely, to the City or otherwise exclusively, or almost exclusively, benefits the City even though it does not provide services directly to it, the financial information for KCCPD is blended as a governmental fund into the primary government. Separate financial statements for the component units are not prepared.

C - Government-Wide and Fund Financial Statements

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely on fees and charges for support. Additionally, the primary government is reported separately from the legally separate component unit for which the primary government is financially accountable.

The government-wide statement of activities demonstrates the degree to which the direct expenses of a functional category (Public Safety, Public Works, etc.) or program are offset by program revenues. Direct expenses are those that are clearly identifiable with specific function or program. Program revenues include: a) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or program, b) grants and contributions that are restricted to meeting the operational requirements of a particular function or program, or c) grants and contributions that are restricted to meeting the capital requirements of a particular function or program. Taxes and other items not properly included among program revenues are reported instead as general revenues. Internally dedicated resources are also reported as general revenues rather than as program revenues.

Separate fund financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The major governmental funds are the general fund, the general obligation debt service fund, the Crime Control Prevention District, and the capital projects fund. GASB Statement No. 34 sets forth minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses of either fund category for the governmental and enterprise combined) for the determination of major funds. The non-major funds are combined in a column in the fund financial statements. The non-major funds are detailed in the combining section of the financial statements.

Note 1 - Summary of Significant Accounting Policies (continued)

C - Government-Wide and Fund Financial Statements (continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Interfund services provided and used are not eliminated in the process of consolidation.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

D - Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The government-wide and proprietary fund financial statements follow the accounting set forth by the Governmental Accounting Standards Board.

Governmental fund level financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. The governmental fund financial statements follow the accounting set forth by the Governmental Accounting Standards Board.

Property taxes, franchise fees, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Sales taxes collected and held by the State and merchants at year-end on behalf of the City are also recognized as revenue. All other revenue items are considered to be measurable and available only when cash is received by the government.

Fund Accounting

The following major governmental funds are used by the City:

General Fund - The General Fund is used to account for all financial transactions that are not accounted for in another fund. The principal sources of revenues of the General Fund are property taxes, sales and use taxes, franchise taxes, licenses and permits, and fines and forfeitures. Expenditures are for general government, public safety, public works and other community services.

General Obligation Debt Service Fund - The General Obligation Debt Service Fund is used to account for the payment of interest and principal on all general long-term debt of the City except for capital leases for which are accounted for in the General Fund. The primary source of revenue for the Debt Service Fund is general property taxes.

The Crime Control Prevention District Special Revenue Fund – This fund is used to account for collection of sales and use taxes, in accordance with Section 363 of the Texas Local Government Code, to be used for public safety crime control and prevention programs.

Note 1 - Summary of Significant Accounting Policies (continued)

D - Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

Fund Accounting (continued)

Parks Capital Improvement Fund – This fund is to account for acquisition or construction of capital assets specific for parks.

Capital Projects Fund - This fund is used to account for construction and progress capital outlay or long-term repair contract expenditures.

In addition, the City reports the following nonmajor governmental funds:

Library Fund – This fund accounts for public donations and revenues restricted for Library improvements.

Municipal Court Fund – This fund accounts for technology and building security fees collected from Municipal Court citations. Expenditures from these fees are specifically restricted by state law for court technology and security.

Public Safety Fund – This fund accounts for revenues derived from forfeiture and seizure of assets resulting from illegal narcotic activity. Expenditures are restricted for the Police Department to be used in illegal narcotic enforcement.

Public Art Fund – This fund is to account for contributions, donations, and other resources that are restricted for specific uses or purposes.

Public Information and Broadcasting – This fund is used to account for collection of franchise taxes from cable fees. Expenditures are restricted for the use of communications throughout the City.

Tree Restoration Fund – This fund accounts for charges for services restricted for the use of restoring trees around the City.

Keller Development Corporation Fund – This fund is used to account for collection of sales and use taxes for the payment of bonds or other forms of indebtedness to finance the cost of Keller parks.

Street/Sidewalk Improvement Fund – This fund is used to account for revenues that are restricted for street and sidewalk improvements. Authorized expenditures include improvements and related engineering.

Hotel Occupancy Fund – This fund accounts for tax related occupancy collections.

The **Nonmajor Capital Projects Funds** account for all resources used for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

Roadway Impact Fees Fund – This fund is used to account for revenues that are restricted for roadway improvements. Authorized expenditures include improvements and engineering.

Park Development Fee Fund – This fund is used to account for resources received primarily from park development fees and expenditures for specific park improvements.

Governmental funds with legally adopted annual budgets include the General Fund, the General Obligation Debt Service Fund, Crime Control Prevention District, Municipal Court fund, Public Safety, Public Information and Broadcasting, Keller Development Corporation, and the Street/Sidewalk Improvement fund. The legal level of control and budget to actual expenditure comparison is reported at the department level.

Note 1 - Summary of Significant Accounting Policies (continued)

D - Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

Fund Accounting (continued)

Proprietary Funds are accounted for using an economic resources measurement focus. The accounting objectives are a determination of net income, financial position, and changes in cash flows. All assets, liabilities, deferred inflows and outflows of resources associated with a proprietary fund's activities are included on its statement of net position.

The proprietary funds are financed and operated in a manner similar to private business enterprise. The costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis are financed or recovered primarily through user charges. Periodic determination of revenues earned, expenses incurred, or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. The City reports proprietary funds that are considered to be enterprise and internal service funds.

The following proprietary funds are reported as enterprise funds:

Water and Wastewater Utilities Fund – This fund is used to account for the operations of the water distribution system, wastewater pumping stations and collection systems. The City reports the water and wastewater utilities fund as a major fund.

Drainage Utility Fund – This fund is used to account for the operations of the City's drainage system for storm water control. The City reports the drainage utility fund as a major fund.

Recreation/Aquatic Center Fund – This fund is considered a non-major fund for reporting purposes and is used to account for customer activity at the City's recreation and pool facilities.

The City's enterprise funds are reported in the business-type activities on the governmental-wide financial statements. Additionally, the City reports the following non-major internal service funds:

Information Technology Fund – This fund is used to account for replacements of computers and software for the City's departments.

Equipment Replacement Fund – This fund is used to account for replacement of vehicles and other equipment that are City owned.

Health Insurance Fund – This fund is used to pay for the City's current employee's health insurance.

The City's internal service funds account for the financing of goods and services provided by one department to other City departments or to other governmental units on a cost-reimbursement basis. The City's internal service funds are reported with the governmental activities with an allocation to the business-type activities on the government-wide financial statements.

Note 1 - Summary of Significant Accounting Policies (continued)

E - Cash and Cash Equivalents and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Substantially all operating cash and cash equivalents are maintained in consolidated cash accounts or individual fund investment accounts.

State statutes authorize the City to invest in (1) obligations of the United States or its agencies and instrumentalities; (2) direct obligations of the State of Texas or its agencies; (3) other obligation, the principal of and interest on which are unconditionally guaranteed or insured by the State of Texas or the United States; (4) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than A or its equivalent; (5) certificates of deposit by state and national banks domiciled in this state that are (A) guaranteed or insured by the Federal Deposit Insurance Corporation, or its successor; or (B) secured by obligations that are described by (1), pledged with third party selected or approved by the City, and placed through a primary government securities dealer.

Investments, except for the investment pools and money market mutual funds are reported at fair value. The investment pools operate in accordance with appropriate state laws and regulations and are reported at amortized cost. Money market mutual funds are accessible at any time and therefore are also reported at amortized cost.

F - Inventories and Prepaid Items

Inventory is valued at cost (first-in, first-out). The cost of governmental fund type inventory is recorded as an expenditure when consumed rather than when purchased. Reported inventories are equally offset by non-spendable fund balance, which indicates that they do not constitute "available, spendable resources" even though they are a component of fund balance. The City is not required to maintain a minimum level of inventory. Inventories in the Proprietary Funds consist of supplies and are recorded at cost when consumed rather than when purchased.

Prepaid balances are for payments made by the City for which benefits extend beyond September 30, 2024, and the non-spendable fund balance has been recognized to signify that a portion of fund balance is not available for other subsequent expenditures. The cost of prepaid services is recorded based on when prepaids was consumed rather than when purchased.

G - Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e. the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by non-spendable fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 60 days comprise the trade accounts receivable allowance for uncollectibles.

The governmental and proprietary funds report grant receivables as earned upon the time when eligible to receive reimbursement if collected within a year after fiscal year end.

Note 1 - Summary of Significant Accounting Policies (continued)

H - Restricted Assets

Certain proceeds of enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants or contractual agreements. Customer deposits received for water and wastewater service are, by law, considered to be restricted assets. These balances are included in the proprietary funds.

I - Capital Assets

Capital assets, which include property, plant, equipment, infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), and right to use subscriptions, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of two years (except for right to use lease and subscription assets). Such assets are recorded at historical cost. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets of the primary government, as well as the component units, are depreciated/amortized using the straight line method over the following estimated useful lives:

Asset Description	Estimated Useful Life
Buildings and improvements	20 - 40 years
Improvements other than buildings	20 - 40 years
Water, sewer, and drainage system	20 - 40 years
Capacity rights	40 years
Machinery, vehicle, and other equipment	3 - 20 years
RTU - Subscription assets (SBITA)	Subscription Term

J - Leases

The City is a *lessee* for a noncancellable lease of equipment. The City recognizes lease liability and an intangible right-to-use lease assets in the government-wide financial statements. The City recognizes lease liabilities with an initial, individual value of \$50,000 or more.

At the commencement of a lease, the City initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Note 1 - Summary of Significant Accounting Policies (continued)

J - Leases (continued)

Key estimates and judgments related to leases include how the City determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The City uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the City generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

For the current year, the City does not have any significant lease assets or liabilities.

K - Subscription-Based Information Technology Arrangements (SBITA)

The City is under contract for various SBITAs for the right to use subscription assets. The SBITAs are noncancellable, and the City recognizes a SBITA liability and an intangible right to use SBITA asset in the governmentwide financial statements. The City recognizes SBITA liabilities with an initial, individual value of \$50,000 or more.

At the commencement of the SBITA, the City initially measures the SBITA liability at the present value of payments expected to be made during the SBITA term. Subsequently, the SBITA liability is reduced by the principal portion of SBITA payments made. The SBITA asset is initially measured as the sum of (1) the initial SBITA liability amount, (2) payments made to the SBITA vendor before commencement of the subscription term, and (3) capitalizable implementation costs, less any incentives received from the SBITA vendor at or before the commencement of the subscription term. Key estimates and judgments related to SBITA include how the City determines (1) the discount rate it uses to discount the expected SBITA payments to present value, (2) SBITA term, and (3) SBITA payments.

- The City uses the interest rate charged by the SBITA vendor as the discount rate. When the interest rate charged by the SBITA vendor is not provided, the City generally uses its estimated incremental borrowing rate as the discount rate for SBITAs.
- The SBITA term includes the noncancellable period of the SBITA and payments included in the measurement of the SBITA liability are composed of fixed payments and purchase option price that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its SBITA and will remeasure the SBITA asset and liability if certain changes occur that are expected to significantly affect the amount of the SBITA liability.

SBITA assets are reported with other capital assets and SBITA liabilities are reported with long-term debt on the statement of net position.

Note 1 - Summary of Significant Accounting Policies (continued)

L - Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Vacation is accrued depending on level of employment and years of service. Vacation can be accrued up to 240 to 400 hours depending on years of service with the City. Accrued vacation is paid upon retirement or termination. Sick leave is accrued at 8 hours per month with no limitations. Accrued sick leave expires and is not paid upon retirement or termination. Unused compensatory time for nonexempt employees is paid upon termination. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they are matured, for example, unused reimbursable leave payable as a result of employee resignations and retirements.

M - Long-term Obligations

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Losses on refunding are deferred and amortized over the life of the new issuance or the existing debt using the effective interest method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

N - Pensions and Other Post-Employment Benefits (OPEB)

The City has Pension and OPEB for supplemental death benefits fund (SDBF) with the Texas Municipal Retirement System (TMRS) and has OPEB for health insurance. For purposes of measuring the net pension and total OPEB liability from TMRS, pension/OPEB related deferred outflows and inflows of resources, and pension/OPEB expense, City specific information about its Fiduciary Net Position in TMRS and additions to/deductions from the City's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions to TMRS are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. Information regarding the City's Total Pension and Total OPEB Liabilities is obtained from TMRS through reports prepared for the City by TMRS consulting actuary, Gabriel Roeder Smith & Company, in compliance with Governmental Accounting Standards Board (GASB) Statements No. 68 and 75. The OPEB for health benefits is an unfunded plan. The same actuaries used for pensions and OPEB from TMRS are used to provide the reporting information for the OPEB for health benefits.

Note 1 - Summary of Significant Accounting Policies (continued)

O - Deferred Outflows/Inflows of Resources

Deferred outflows and inflows of resources are reported in the financial position as described below:

In addition to assets, the statement of financial position will sometimes report a separate section for *deferred outflows of resources*. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has the following items that qualify for reporting in this category.

- Deferred outflows of resources for refunding - Reported in the government-wide statement of net position, this deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Deferred outflows of resources for pension – Reported in the government-wide financial statement of net position, this deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results 1) differences between projected and actual earnings on pension plan investments; 2) changes in actuarial assumptions; 3) differences between expected and actual actuarial experiences and 4) changes in the City's proportional share of pension liabilities. The deferred outflows of resources related to pensions resulting from City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on pension plan investments will be amortized over a closed five-year period. The remaining pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.
- Deferred outflows of resources for other post-employment benefits (OPEB) other than pension – Reported in the government wide financial statement of net position, this deferred outflow results from OPEB plan contributions made after the measurement date of the total OPEB liability and the results of 1) differences between projected and actual earnings on OPEB plan investments; 2) changes in actuarial assumptions; 3) differences between expected and actual actuarial experiences and 4) changes in the City's proportional share of OPEB liabilities. The deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on OPEB investments will be amortized over a closed five-year period. The remaining postemployment related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with OPEB through the OPEB plan.

In addition to liabilities, the statement of financial position will sometimes report a separate section for *deferred inflows of resources*. This separate financial statement element, deferred inflows or resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has the following items that qualify for reporting on an accrual basis.

- Deferred inflows of resources for unavailable revenues - Reported only in the governmental funds balance sheet, unavailable revenues from property taxes arise under the modified accrual bases of accounting. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.
- Deferred inflows of resources for pension – reported in the government-wide financial statement of net position, these deferred inflows result primarily from 1) changes in actuarial assumptions; 2) differences between expected and actual actuarial experiences and 3) changes in the City's proportional share of pension liabilities. These pension related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.
- Deferred inflows of resources for OPEB – Reported in the government wide financial statement of net position, this deferred inflow results primarily from 1) changes in actuarial assumptions; and 2) differences between expected and actual actuarial experiences. These OPEB related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with OPEB through the OPEB plan.

Note 1 - Summary of Significant Accounting Policies (continued)

P - Fund Balance

The City has adopted the provisions of GASB Statement No. 54, *Fund Balance Reporting and Government Fund Type Definitions*. The objective of the statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing government fund type definitions. The statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Fund balance classifications, under GASB 54 are Nonspendable, Restricted, Committed, Assigned, and Unassigned.

These classifications reflect not only the nature of funds, but also provide clarity to the level of restriction placed upon fund balance. Fund balance can have different levels of constraint, such as external versus internal compliance requirements. Unassigned fund balance is a residual classification within the General Fund. The General Fund should be the only fund that reports a positive unassigned balance. In all other funds, unassigned is limited to negative residual fund balance.

In accordance with GASB 54, the City classifies governmental fund balances as follows:

Nonspendable fund balance – includes amounts that are not in a spendable form or are required to be maintained intact. (i.e. inventories, prepaid items)

Restricted fund balance – includes amounts that can be spent only for the specific purposes stipulated by external resource providers either constitutionally or through enabling legislation. (i.e. debt service, capital projects, economic development, municipal court security, municipal court technology, tourism)

Committed fund balance – includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority (City Council). Commitments may be changed or lifted only by the government taking the same formal action (resolution) that imposed the constraint originally (i.e. park acquisition and improvement, recreation, fire training, fire development, public arts).

Assigned fund balance – comprises amounts intended to be used by the government for specific purposes. Per the fund balance policy, intent can be expressed by the City Council or by an official or body to which the City Council delegates the authority. The City Council has authorized the City Manager as the official authorized to assign fund balance to a specific purpose as approved by the fund balance policy.

Unassigned fund balance – is the residual classification of the general fund and includes all amounts not contained in other classifications. Unassigned amounts are technically available for any purpose.

Order of Expenditure of Funds – When multiple categories of fund balance are available for expenditure, the City will start with the most restricted category and spend those funds first before moving down to the next category with available funds. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

Note 1 - Summary of Significant Accounting Policies (continued)

Q - Property Taxes

Property taxes are levied for appropriation for the fiscal year beginning on October 1, are due October 1, attach as an enforceable lien on property as of January 1, and become delinquent on February 1. Property taxes are accrued based on the period for which they are levied and available. Delinquent taxes estimated not to be available are treated as deferred revenue in the governmental fund financial statements. Property taxes for cities, including those applicable to debt service, are limited by the Texas Constitution to \$2.50 per \$100 of assessed valuation. The City's current tax rate is \$0.31200 per \$100 of assessed valuation and assessed valuation is approximately 100% of estimated value.

R - Use of Estimates

The preparation of financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

S - Net Position Classifications

Classification of net position includes three components as follows:

- Net investment in capital assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings, premiums, discounts, and deferred outflows of resources or deferred inflows of resources from a refunding.
- Restricted – This component of the net position consists of constraints placed on net asset use through external constraints imposed by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through contractual provisions or enabling legislation.
- Unrestricted net position – This component of net position consists of net position that does not meet the definition of “restricted” or “net investment in capital assets.”

T - Proprietary Funds Operating and Non-operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for the enterprise funds and internal service fund include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues not meeting this definition are reported as non-operating revenues and expenses.

Note 2 - Deposits and Investments

The following table shows the City's recorded cash and equivalents and investments at September 30, 2024:

Fund	Governmental Funds	Internal Service Funds	Enterprise Funds	Total
Cash and cash equivalents	\$ 30,302,446	\$ 8,221,551	\$ 27,433,021	\$ 65,957,018
Investments	95,141,963	8,541,732	11,969,212	115,652,907
	<u>\$ 125,444,409</u>	<u>\$ 16,763,283</u>	<u>\$ 39,402,233</u>	<u>\$ 181,609,925</u>

At year end, the carrying amount of the City's interest-bearing bank deposits and money market funds was \$65,957,018 and the bank balance was \$66,916,643. All of the bank balances were covered by federal deposit insurance and collateralized by the pledging financial institution's City's safekeeping account at the Federal Reserve or held by a third-party custodian.

Additionally, the City has an account under a safekeeping agreement with Frost Bank, TX. The U.S. Government Treasury and Agency investments clear via the Federal Reserve System through this account upon purchase, sale, or maturity. All assets in the account are held in the City's name.

The table below identifies the investment types that are authorized for the City by the Public Funds Investment Act. (Government Code Chapter 2256) The table also identifies certain provisions of the City's investment policy that address interest rate risk, credit risk, and concentration of credit risk.

Authorized Investment Type	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment In One Issuer
U.S. Treasury Obligations	3 Years	100%	None
U.S. Agency Obligations	3 Years	80%	None

Money Market Accounts	3 Years	80%	None

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, Fair Value Measurement and Application, provides a framework for measuring fair value which establishes a three-level fair value hierarchy that describes the inputs that are used to measure assets and liabilities.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs—other than quoted prices included within Level 1—that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

Note 2 - Deposits and Investments (continued)

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

Investment Pools are measured at amortized cost and are exempt for fair value reporting.

Certificates of Deposit classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

The City has recurring fair value measurements as presented in the table below. The City's investment balances and weighted average maturity of such investments are as follows:

	<u>Fair Value/ Amortized Cost</u>	<u>Weighted Average Maturity (Days)</u>	<u>Percentage of Portfolio</u>	<u>Portfolio WAM</u>	<u>Credit Risk</u>
Certificate of Deposits:					
East West Bank	\$ 30,567,866	161	26%	43	
Third Coast Bank	16,001,646	215	14%	30	
American Nat'l Bank & Trust	3,149,571	136	3%	4	
BOK Financial Bank	5,265,246	367	5%	17	
Cornerstone Capital Bank	12,063,970	322	10%	34	
Texas Bank	10,343,482	104	9%	9	
Wallis Bank	11,346,533	143	10%	14	
Local Government Investment Pools:					
TexPool	26,914,593	1	23%	0	AAAm
Total	<u><u>\$ 115,652,907</u></u>				

Weighted average maturity of the portfolio by investment type reflected in the table is stated in days. For investment pools, the recent weighted average maturity is presented based on the statewide investment pool. Interest bearing bank deposits is not included in the portfolio's weighted average maturity presented.

Interest Rate Risk

In compliance with the City's Investment Policy, as of September 30, 2024, the City minimized the interest rate risk, the risk relating to the decline in fair value of securities in the portfolio, by: limiting the weighted average maturity to 365 days and the stated maturity to two years or less, with the exception of securities purchases related to reserve funds; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the secondary market prior to maturity; monitoring credit ratings of portfolio positions to assure compliance with rating requirements imposed by the PFIA; and investing funds primarily in money market mutual funds, government investment pools, and shorter-term securities with a weighted average maturity of less than 200 days.

Note 2 - Deposits and Investments (continued)

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. It is the City's policy to limit its investment types with an investment quality rating not less than AAA or its equivalent by a national recognized statistical rating organization.

The City's investment policy does not allow for an investment in any one issuer (other than investment pools) that is in excess of five percent of the fair value of the City's total investments.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

The Public Funds Investment Act does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits:

The Public Funds Investment Act requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The fair value of the pledged securities in the collateral pool must equal at least the bank balance less the FDIC insurance at all times.

The City requires all deposits to be covered by Federal Depository Insurance Corporation (FDIC) insurance and/or collateralized by qualified securities pledged by the City's depository in the City's name and held by the depository's agent.

The State Comptroller of Public Accounts exercises responsibility over TexPool. This oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. TexPool operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. TexPool uses amortized costs rather than fair value to report net position to compute share prices. Accordingly, the fair value of the position in TexPool is the same as the value of TexPool shares. There are no significant limitations or restrictions on participant withdrawals.

Note 3 - Receivables

Year-end receivable balances for the government's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General Fund	General Obligation Debt Service Fund	Crime Control Prevention District Fund	Capital Projects Fund	Parks Capital Improvements Fund	Nonmajor Governmental Funds	Total Governmental Funds
Receivables:							
Property taxes	\$ 259,561	\$ 64,052	\$ -	\$ -	\$ -	\$ -	\$ 323,613
Franchise taxes	677,477	-	-	-	-	17,728	695,205
Sales taxes	1,522,376	-	351,374	-	-	1,161,810	3,035,560
Accounts	1,411,375	5,911	-	-	8,657,515	4,434	10,079,235

* Governmental activities include internal service fund machinery and equipment and SBITA assets of \$17,727,006 with accumulated depreciation/amortization of \$11,843,485 as of September 30, 2024.

Note 4 - Capital Assets (continued)

Depreciation/amortization expense was charged to functions/programs of the governmental activities of the primary government as follows:

Governmental Activities:	
General government	\$ 612,418
Public Safety	2,030,646
Public works	9,150,129
Community development	7,620
Recreation and cultural	1,126,376
Total Governmental Activities	\$ 12,927,189

Governmental activities portion of the internal service fund depreciation/amortization expense of \$1,323,964 is allocated within each function.

Business-type activities depreciation expense as follows:

Business-type Activities:	
Water and wastewater utilities	\$ 2,832,768
Drainage utility	1,000,688
Recreation / aquatic center	399,656
Total Business-type Activities	\$ 4,233,112

Net investment in capital assets at September 30, 2024 is calculated as follow:

	Governmental Activities	Business-type Activities
Capital Assets, Net	\$ 152,886,380	\$ 104,336,586
Less:		
Bonds payable	(52,365,000)	(21,505,000)
Premiums on bonds	(6,099,355)	(502,535)
SBITA liability	(243,144)	-
Plus:		
Deferred charges on refunding	167,040	31,514
Unspent bond proceeds	27,722,275	5,826,499
Net Investment in Capital Assets	\$ 122,068,196	\$ 88,187,064

Note 4 - Capital Assets (continued)

The City has active construction projects as of September 30, 2024. The projects include construction, park improvements, and drainage improvements. Significant Commitments for construction in progress are composed of the following:

Project Name	Project Number	Budget	Total in Progress	Remaining Commitment
Old Town Keller Phase 2	502010	\$ 27,855,000	\$ 6,190,821	\$ 21,664,179
2022 Street Reconstruction Project	502102	4,436,756	3,820,925	615,831
Bear Creek Bridge Erosion	502202	1,200,000	149,635	1,050,365
Mt. Gilead Reconstruction	502206	13,705,000	858,311	12,846,689
Pavement Markings	502401	1,400,000	699,501	700,499
2024 Street Maintenance	502408	2,345,414	224,545	2,120,869
Tank Maintenance	601905	6,325,000	3,210,458	3,114,542
21 Swift AC Replacements	602101	4,311,390	1,649,645	2,661,745
Pearson Pump Station Generator	602202	2,000,000	383,675	1,616,325
Bates Street Water Line Replacements	602205	675,000	197,742	477,258
22 Swift AC Replacements	602207	4,060,000	596,472	3,463,528
Cade Branch Wastewater Capacity Improvements	702201	2,415,600	1,895,842	519,758
Keller Sports Park Renovations	802205	38,118,835	16,543,561	21,575,274
Police Station Renovations	802309	5,070,000	2,182,656	2,887,344
TBD Splash Pad	802402	750,000	11,500	738,500
		<u>\$ 114,667,995</u>	<u>\$ 40,370,072</u>	<u>\$ 74,297,923</u>

Note 5 - Transfers

Transfers are used to provide funds for debt service, contributions for capital construction, cost allocations and other operational costs as determined by the City's annual budget.

Transfers between funds during the year were as follows:

	Transfers in:				
	Governmental Funds		Enterprise Funds		Total
	Capital Projects	Parks Capital Improvements	Water and Wastewater Utilities	Internal Service Fund	
Transfers out:					
General	\$ 3,270,302	\$ -	\$ 3,419,904	\$ 293,598	\$ 6,983,804
Crime Control Prevention District	4,500,000	-	-	-	4,500,000
Capital Projects	-	16,499,341	-	-	16,499,341
Nonmajor Governmental Funds	3,107,913	3,420,616	-	-	6,528,529
	<u>\$ 10,878,215</u>	<u>\$ 19,919,957</u>	<u>\$ 3,419,904</u>	<u>\$ 293,598</u>	<u>\$ 34,511,674</u>

Note 6 – Unavailable Revenues

Governmental funds report *deferred inflows of resources* in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. At the end of the current fiscal year, the various components of deferred inflows of resources reported in the governmental funds were as follows:

	General Fund	General	Nonmajor	Total
		Obligation Debt Service Fund	Governmental Funds	
Deferred inflows of resources:				
Property taxes	\$ 227,115	\$ 56,046	\$ -	\$ 283,161
Court fines	710	-	33	743
Emergency services	447,100	-	-	447,100
Total	<u>\$ 674,925</u>	<u>\$ 56,046</u>	<u>\$ 33</u>	<u>\$ 731,004</u>

Note 7 - Long-Term Liabilities

General Obligation Bonds, Certificates of Obligation and Contractual Obligations

The City issues general obligation bonds, certificates of obligation bonds, and contractual obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental which includes blended component units and business-type activities. These issues are direct obligations and pledge the full faith and credit of the City. Amounts outstanding at September 30, 2024 are as follow:

General Obligation Bonds	Final Maturity	Interest Rates	Component Unit Portion	City Portion	Total Governmental	Business-Type
\$11,465,000 Series 2012 Refunding	2024	2.00 - 5.00%	\$ -	\$ -	\$ -	\$ -
\$10,475,000 Series 2015 Refunding	2026	2.00 - 4.00%	-	-	-	585,000
\$7,350,000 Series 2017 Refunding	2029	2.00 - 3.00%	-	3,965,000	3,965,000	-
\$12,220,000 Series 2020 Refunding and Improvement	2035	2.00 - 5.00%	-	7,470,000	7,470,000	530,000
Total General Obligation Bonds			<u>\$ -</u>	<u>\$ 11,435,000</u>	<u>\$ 11,435,000</u>	<u>\$ 1,115,000</u>

* Component Unit Portion is with Keller Development Corporation

Certificates of Obligation	Final Maturity	Interest Rates	Component Unit Portion	City Portion	Total Governmental	Business-Type

Total Certificates of Obligation			<u>\$ -</u>	<u>\$ 40,930,000</u>	<u>\$ 40,930,000</u>	<u>\$ 20,390,000</u>

* Component Unit Portion is with Keller Development Corporation

During the fiscal year, the City issued \$25,255,000 in Combination Tax and Revenue Certificates of Obligation Series 2024. The Certificates of Obligation carry an interest rate ranging from 4.00% – 5.00% and mature in 2038. Additionally, the City issued \$13,770,000 in Combination Tax and Revenue Certificates of Obligation Series 2024A. The Certificates of Obligation carry an interest rate ranging from 4.00% – 5.00% and mature in 2039. Proceeds from the sale of the Certificates will be used for constructing, reconstructing and improving streets, roads, bridges, alleys and sidewalks, and related drainage, utility relocation, signalization, landscaping, lighting and signage for said projects, and the acquisition of land and rights-of-way therefor.

Note 7 - Long-Term Liabilities (continued)

Changes in Long-term Liabilities

A summary of long-term liabilities transactions, including current portion, for the year ended September 30, 2024, is as follows:

	Balance September 30, 2023	Additions	Reductions	Balance September 30, 2024	Amounts Due Within One Year
Governmental Activities:					
Bonds Payable:

SBITA Liability

The City is under contract for noncancellable SBITAs that convey control of the right to use software. The agreements carry a discount rate that ranges from 3.38% to 4.26% and mature over the next two fiscal years as follow:

Fiscal Year	SBITA Liability		
	Principal	Interest	Total
2025	\$ 243,144	\$ 14,208	\$ 257,352
	<u>\$ 243,144</u>	<u>\$ 14,208</u>	<u>\$ 257,352</u>

Compensated Absences

Compensated absences represent the estimated liability for employees' vacation leave for which employees are entitled to be paid upon termination. The retirement of this liability is typically paid from the General Fund and Enterprise Funds based on the assignment of an employee at termination. Business-type activities records all of the compensated absences balance as due within one year since the balance has typically been paid within the following year.

Note 8 - Defined-Benefit Pension Plans

Texas Municipal Retirement System

Plan Description and Provisions

The City participates as one of 895 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available annual comprehensive financial report (annual report) that can be obtained at www.tmr.com.

All eligible employees of the City are required to participate in TMRS.

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven actuarially equivalent payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

The City has approved an annually repeating (automatic) basis a monetary credit referred to as an updated service credit (USC) which is a theoretical amount which takes into account salary increases or plan improvements. If at any time during their career an employee earns a USC, this amount remains in their account earning interest at 5% until retirement. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer match plus employer-financed monetary credits, such as USC, with interest were used to purchase an annuity. Additionally, City provides on an annually repeating (automatic) basis cost of living adjustments (COLA) for retirees equal to a percentage of the change in the consumer price index (CPI).

A summary of plan provisions for the City are as follows:

Employee deposit rate:	7%
Matching ratio (City to employee):	2 to 1
Years required for vesting:	5
Updated Service Credit:	100% Repeating Transfers
Annuity Increase to retirees:	50% of CPI Repeating

Members can retire at ages 60 and above with 5 or more years of service or with 20 years of service. A member is vested after 5 years. The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes.

Note 8 - Defined-Benefit Pension Plans (continued)

Texas Municipal Retirement System (continued)

Benefits Provided

At the December 31, 2023 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	219
Inactive employees entitled to but not yet receiving benefits	278
Activity employees	<u>296</u>
Total	<u><u>793</u></u>

Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the City matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the State law governing TMRS, the contribution rate for each City is determined annually by the consulting actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City were 16.67% and 16.15% in calendar years 2024 and 2023, respectively.

Net Pension Liability

The City's net pension liability was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The total pension liability in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Salary Increases	3.60% to 11.85% including inflation
Investment Rate of Return	6.75%
Actuarial cost method	Entry Age Normal
Amortization method	Level percentage of payroll, closed

Salary increases are assumed to occur once a year on January 1 so that the pay used for the period year following the valuation is equal to the reported pay for the prior year. Salaries are assumed to increase on a graduated service-based scale.

Actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation. The post-retirement mortality assumption for annuity purchase rates is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

Note 8 - Defined-Benefit Pension Plans (continued)

Texas Municipal Retirement System (continued)

Actuarial Assumptions (continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2024 are summarized in the table below:

Asset Class	Strategic Target Allocation Index
Core fixed income	6.0%
Non-core fixed income	20.0%
Global public equity	35.0%
Real estate	12.0%
Hedge funds	5.0%
Other public & private market	12.0%
Private equity	10.0%
Total	100.0%

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 8 - Defined-Benefit Pension Plans (continued)

Texas Municipal Retirement System (continued)

Changes in the Net Pension Liability

	Total Pension Liability	Increase (Decrease) Plan Fiduciary Net Position	Net Pension Liability
	(a)	(b)	(a) - (b)
Balance at 12/31/2022	\$ 132,857,931	\$ 109,761,421	\$ 23,096,510
Changes for the Year:			
Service cost	3,830,092	-	3,830,092
Interest	8,907,468	-	8,907,468

Net changes	7,568,434	12,174,387	(4,605,953)
Balance at 12/31/2023	\$ 140,426,365	\$ 121,935,808	\$ 18,490,557

Sensitivity of the Net Pension Liability

The following presents the net pension liability of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

	1% Decrease to 5.75%	Current Single Rate Assumption 6.75%	1% Increase to 7.75%
City's net pension liability	\$ 38,765,195	\$ 18,490,557	\$ 1,905,584

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in a separately issued TMRS financial report. That report may be obtained on the Internet at the following location: TMRS 2023 ACFR.

Note 8 - Defined-Benefit Pension Plans (continued)

Texas Municipal Retirement System (continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2024, the City recognized pension expense of \$3,641,970.

At September 30, 2024, the City reported deferred outflows and inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actuarial assumptions and actual experience	\$ 1,324,932	\$ (39,007)
Changes in actuarial assumptions used	-	(379,911)
Differences between projected and actual investment earnings	2,943,112	-
Contributions subsequent to the measurement date	2,757,040	-
Total	\$ 7,025,084	\$ (418,918)

Deferred outflows of resources of \$2,757,040 resulting from contributions subsequent to the measurement date of December 31, 2023, will be recognized as a reduction of the net pension liability for the fiscal year ending September 30, 2025. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year	Net Deferred Outflows (Inflows) Of Resources
2025	\$ 1,208,300
2026	1,341,926
2027	2,360,148
2028	(1,061,248)
Total	\$ 3,849,126

Note 9 - Other Post-Employment Benefits (OPEB)

The City provides for two other post-employment benefits (OPEB) plans; one provides for post-employment health insurance benefits through a single-employer defined benefit medical plan (City of Keller Retiree Health Care Plan), and the other is The Texas Municipal Retirement System Supplemental Death Benefits Fund, a single employer defined benefit OPEB plan. Both plans are described in detail below. Aggregate amounts for the two OPEB plans are as follows:

	Retiree Health Care Plan	TMRS SDBF	Total
OPEB Liability	\$ 800,592	\$ 808,471	\$ 1,609,063
Deferred outflows of resources	232,399	159,454	391,853
Deferred inflows of resources	1,106,589	333,504	1,440,093
OPEB expense	11,467	30,881	42,348

City of Keller Retiree Health Care Plan

Plan Description and Benefits Provided

The City provides other postemployment benefits (OPEB) in the form of health insurance benefits through a single-employer defined benefit medical plan. Regular full-time employees retiring from the City with 20 years of service or five years of service if over 60, have the option to continue medical insurance coverage for themselves and their families until the retiree becomes eligible for Medicare or is eligible to be covered under another medical plan. The retired employee pays 100% of the premium which was \$855 to \$2,132 depending on what plan the retiree choses. A third-party administrator is utilized to provide claims administration and payment of claims.

The Plan does not issue a separate financial report.

Employees Covered by Benefit Terms

The following table provides a summary of the number of participants in the plan as of December 31, 2023:

Inactive employees or beneficiaries currently receiving benefits	-
Inactive employees entitled to but not yet receiving benefits	-
Active employees	290
Total	290

Contributions

The City's plan is a pay-as-you-go plan in which the City does not contribute to a trust to fund future benefits. The City's contributions during the fiscal year ending September 30, 2024 of \$34,652 all of which were for the benefit payments and were paid by the City using its own assets. The benefit payments were determined in a manner similar to how the benefit payments for the measurement period were developed. The City through its budgeting process determines the annual contributions to the Plan based on the actuarially determined contribution and the availability of funds.

Total OPEB Liability

Total OPEB liability reported at September 30, 2024 was measured as of December 31, 2023, and based on actuarial valuation performed as of December 31, 2023.

Note 9 - Other Post-Employment Benefits (OPEB) (continued)

City of Keller Retiree Health Care Plan (continued)

Actuarial Assumptions

The total OPEB liability in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation Date	December 31, 2023
Actuarial Cost Method	Individual Entry Age Normal
Discount Rate	3.77% as of December 31, 2023
Inflation	2.50%
Salary Increases	3.50% to 11.85%, including inflation
Demographic Assumptions	Based on the 2023 experience study conducted for the Texas Municipal Retirement System (TMRS).
Mortality	For healthy retirees, the gender-distinct 2019 Municipal Retirees of Texas mortality tables are used, with male rates multiplied by 103% and female rates multiplied by 105%. The rates are projected on a fully generational basis using the ultimate mortality improvement rates in the MP-2021 table to account for future mortality improvements.
Health Care Trend Rates	Initial rate of 7.10% declining to an ultimate rate of 4.25% after 14 years.
Participation Rates	15% for employees retiring on or after the age of 50; 0% for employees retiring before age 50

For plans that do not have formal assets, the discount rate should equal the tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date. For the purpose of this valuation, the municipal bond rate is 2.00% (based on the daily rate closest to but not later than the measurement date of the Fidelity "20-Year Municipal GO AA Index"). The discount rate was 1.84% as of the prior measurement date.

There are no plan assets accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Changes in the Total OPEB Liability

Service cost	\$ 84,015
Interest	41,945
Changes of benefit terms	-
Difference between expected and actual experience of the total OPEB liability	(372,594)
Changes of assumptions	57,023
Benefit payments	(6,955)
Net change in total OPEB liability	(196,566)
Total OPEB Liability - Beginning	997,158
Total OPEB Liability - Ending	\$ 800,592
 Covered Payroll	 \$ 22,529,942
 Total OPEB Liability as a Percentage of Covered Payroll	 3.55%

Note 9 - Other Post-Employment Benefits (OPEB) (continued)

City of Keller Retiree Health Care Plan (continued)

The Benefit Payments During the Measurement Period were Determined as Follows:

Age-adjusted premiums (retiree contributions * 1.621)	\$	18,154
Retiree contributions		<u>(11,199)</u>
Total Benefit Payments	\$	<u>6,955</u>

The 1.621 factor equals the ratio of the expected retiree claims to the expected retiree contributions. The underlying retiree claims were estimated using age-adjusted premiums.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate and Healthcare Cost Trend Rates

Regarding the sensitivity of the total OPEB liability to changes in the Single Discount Rate, the following presents the plan's total OPEB liability, calculated using a discount rate of 3.77%, as well as what the plan's total OPEB liability would be if it were calculated using a discount rate that is one percent lower or one percent higher:

1% Decrease	Current Discount	1% Increase
2.77%	Rate Assumption	4.77%
	3.77%	
\$ 887,453	\$ 800,592	\$ 722,220

Regarding the sensitivity of the total OPEB liability to changes in the healthcare cost trend rates, the following presents the plan's total OPEB liability, calculated using the assumed trend rates as well as what the plan's total OPEB liability would be if it were calculated using a trend rate that is one percent lower or one percent higher:

1% Decrease	Current Healthcare	1% Increase
	Cost Trend Rate	
	Assumption	
\$ 692,947	\$ 800,592	\$ 928,954

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended December 31, 2023, the City recognized OPEB expense of \$11,467. At September 30, 2024, the reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Differences between expected and actual experience	\$ 3,694	\$ (677,450)
Changes assumptions	225,719	(429,139)
Contributions subsequent to the measurement date	2,986	-
Total	<u>\$ 232,399</u>	<u>\$ (1,106,589)</u>

Note 9 - Other Post-Employment Benefits (OPEB) (continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources (continued)

The \$2,986 reported as deferred outflows of resources related to OPEB result from contributions subsequent to the measurement date and will reduce the total OPEB liability during the fiscal year ending September 30, 2025.

The other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year	Net Deferred Outflows (Inflows) Of Resources	
2025	\$	(114,493)
2026		(114,493)
2027		(114,493)
2028		(119,773)
2029		(117,463)
Thereafter		(296,461)
Total	\$	(877,176)

Differences between expected and actual experience and changes in assumptions are recognized in OPEB expense using a systematic and rational method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with OPEB through the OPEB plan (active employees and inactive employees) determined as of the beginning of the measurement period.

At the beginning of the current measurement period, the expected remaining service lives of all active employees in the plan was approximately 2,825 years. Additionally, the total plan membership (active employees and inactive employees) was 290. As a result, the average of the expected remaining service lives for purposes of recognizing the applicable deferred outflows and inflows of resources established in the current measurement period is 9.7419 years.

Other Post Employment Benefits – TMRS Supplemental Death Benefit Fund

Plan Description

Texas Municipal Retirement System (“TMRS”) administers a defined benefit group-term life insurance plan known as the Supplemental Death Benefits Fund (“SDBF”). This is a voluntary program in which participating member cities may elect, by ordinance, to provide group-term life insurance coverage for their active members, including or not including retirees. Employers may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1. The City has elected to participate in the SDBF for its active members including retirees. As the SDBF covers both active and retiree participants, with no segregation of assets, the SDBF is considered to be an unfunded single-employer OPEB plan (i.e. no assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75) for City reporting.

Note 9 - Other Post-Employment Benefits (OPEB) (continued)

Other Post Employment Benefits – TMRS Supplemental Death Benefit Fund (continued)

Benefits Provided

The death benefit for active employees provides a lump-sum payment approximately equal to the employee’s annual salary (calculated based on the employee’s actual earnings, for the 12-month period preceding the month of death). The death benefit for retirees is considered another postemployment benefit (“OPEB”) and is a fixed amount of \$7,500. At the December 31, 2023 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	136
Inactive employees entitled to but not yet receiving benefits	56
Active employees	<u>293</u>
Total	<u><u>485</u></u>

Contributions

The member city contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. The intent is not to pre-fund retiree term life insurance during employees’ entire careers.

Contributions are made monthly based on the covered payroll of employee members of the participating member city. The contractually required contribution rate is determined annually for each city. The rate is based on the mortality and service experience of all employees covered by the SDBF and the demographics specific to the workforce of the city. There is a one-year delay between the actuarial valuation that serves as the basis for the employer contribution rate and the calendar year when the rate goes into effect. The funding policy of this plan is to assure that adequate resources are available to meet all death benefit payments for the upcoming year.

The retiree portion of contribution rates to the SDBF for the City was 0.08% and 0.07% in calendar years 2024 and 2023. The City’s contributions to the SDBF for the year ended September 30, 2024 were \$15,604, and were equal to the required contributions.

Discount Rate

The TMRS SDBF program is treated as unfunded OPEB plan because the SDBF trust covers both active employees and retirees and the assets are not segregated for these groups. Under GASB Statement No. 75, the discount rate for an unfunded OPEB plan should be based on 20-year tax-exempt AA or higher Municipal Bonds. Therefore, a discount rate of 3.77% based on the 20 Year Bond GO Index published by bondbuyer.com is used as of the measurement date of December 31, 2023.

Actuarial Assumptions

The City’s total OPEB liability was measured at December 31, 2023 and was determined by an actuarial valuation as of that date using the following actuarial assumptions:

Inflation	2.50%
Salary increases	3.60% to 11.85% including inflation
Discount rate	3.77%
Retiree's share of benefit-related costs	\$0
Actuarial cost method	Entry Age Normal

Note 9 - Other Post-Employment Benefits (OPEB) (continued)

Other Post Employment Benefits – TMRS Supplemental Death Benefit Fund (continued)

Changes in the Total OPEB Liability

Total OPEB Liability

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB Activity

Sensitivity Analysis

The following presents the total OPEB liability of the employer, calculated using the discount rate of 3.77%, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.77%) or 1 percentage point higher (4.77%) than the current rate. Note that the healthcare cost trend rate does not affect the total OPEB liability, so sensitivity to the healthcare cost trend rate is not shown.

1% Decrease	Current Discount	1% Increase
2.77%	Rate	4.77%
	3.77%	
\$ 981,223	\$ 808,471	\$ 674,906

For the year ended September 30, 2024, the City recognized OPEB expense of \$30,881. As of September 30, 2024, the City reported deferred outflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 532	\$ (42,821)
Changes assumptions	147,168	(290,683)
Contributions subsequent to the measurement date	11,754	-
Total	\$ 159,454	\$ (333,504)

The \$11,754 reported as deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ending September 30, 2025.

Note 9 - Other Post-Employment Benefits (OPEB) (continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB Activity (continued)

Sensitivity Analysis (continued)

Amounts currently reported as deferred outflows of resources related to OPEB, excluding contributions subsequent to the measurement date, will be recognized in OPEB expense as follows:

Fiscal Year	Net Deferred Outflows (Inflows) Of Resources
2025	\$ (31,721)
2026	(31,987)
2027	(56,742)
2028	(64,705)
2029	(924)
Thereafter	275
Total	\$ (185,804)

Note 10 - Other Information

Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such agencies. Any disallowed claims, including amounts already collected may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City periodically is a defendant in various lawsuits. At September 30, 2024, after consultation with the City's attorney, the City is not aware of any pending litigation.

The City contracts for garbage disposal with a third party. Under the terms of the agreement the City bills and collects the residential billing and remits that amount to the contracting party. The contractor bills the commercial customers and remits a franchise fee to the City based on total revenues received from the contract.

Risk Management

The City is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health benefits; and other claims of various natures. The City purchases commercial insurance to indemnify it in event of loss. For the past three years, settlements did not exceed coverage.

Note 11 - Tax Abatements

The City enters into economic development agreements authorized under Chapter 380 of the Texas Local Government Code. These agreements are planning tools designed to stimulate economic activity, redevelopment, community improvement, and provide a return on investment for the community. These programs abate or rebate property and/or sales taxes on investment for the incentive payments such as fee reductions or construction costs reimbursements. Economic development agreements are considered on a case-by-case basis by the City Council and generally contain recapture provisions, which may require repayment or termination if recipients do not meet the required provisions of the economic incentives.

Chapter 380 of the Texas Local Government Code allows the City to provide grants for the purpose of promoting local economic development. Based on City Council agreements with developers, the City reimbursed \$19,541 for ad valorem and \$180,000 for hotel occupancy taxes paid to the City for fiscal year ending September 30, 2024.

CITY OF KELLER, TEXAS
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

Budgetary Controls and Procedures

The City follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. Public hearings are conducted to obtain taxpayer comments.
2. Prior to October 1, the budget is legally enacted through passage of an ordinance.
3. The City Council must authorize amendments to budgeted amounts between departments within any fund. Therefore, the department level is the legal level of control and budget to actual expenditure comparisons is reported at the department level.
4. All transfers to and from budgeted funds must be approved by the City Council unless related to grant or bond activities.
5. Budgeted amounts are as originally adopted or as amended by the City Council. During 2024, individual amendments were not material in relation to the original appropriations for expenditures. All budget appropriations automatically lapse at year-end.
6. Formal budgetary integration is employed as a management control device during the year. The legally adopted budget is adopted on a basis consistent with generally accepted accounting principles.
7. During the year ended September 30, 2024, the City's actual expenditures exceeded the budgeted amounts in the following departments: Finance and Municipal Court, Police Department, Fire Department, and Library.

Non-major Governmental Funds

Special Revenue Funds

Library fund - This fund accounts for public donations and revenues designated for Library improvements.

Municipal court fund - This fund accounts for technology and building security fees collected from Municipal Court citations. Expenditures from these fees are specifically designated by state law.

Public safety fund - This fund accounts for revenues derived from forfeiture and seizure of assets resulting from illegal narcotic activity. Expenditures are restricted for the Police Department to be used in illegal narcotic enforcement.

Public art fund - This fund is to account for contributions, donations, and other resources that are dedicated for specific uses or purposes.

Public information and broadcasting - This fund is used to account for revenue received from PEG fees and expenditures to enhance public communication.

Tree restoration fund - This fund accounts for public donations and charges for services designed for Library preservation of trees throughout the City.

Keller development corporation fund - This fund is used to account for collection of sales and use taxes for the payment of bonds or other forms of indebtedness to finance the cost of Keller parks.

Street/sidewalk improvements fund - This fund is used to account for revenues that are restricted for street and sidewalk improvements. Authorized expenditures include improvements and engineering.

Hotel occupancy fund - This fund is used to account for hotel occupancy tax revenue.

Capital Projects Funds

Roadway impact fees fund - This fund is used to account for revenues that are restricted for roadway improvements. Authorized expenditures include improvements and engineering.

Park development fee fund - This fund is used to account for resources received primarily from park development fees and expenditures to specific park improvements.

STATISTICAL SECTION

STATISTICAL SECTION

This part of the City of Keller's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, notes disclosures, and required supplementary information says about the City's overall financial health. This information has not been audited by the independent auditor.

Contents

Tables

Financial Trends

1-5

These tables contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity

6-14

These tables contain information to help the reader assess the City's two most significant local revenue sources, the property and sales taxes.

Debt Capacity

15-19

These tables present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Economic and Demographic Information

20-21

These tables offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information

22-24

These tables contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides.

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial report for the relevant year. The City implemented GASB Statement 34 in fiscal year 2003: tables pressing government-wide information include information beginning in that year.

2024	6,754,346,874	949,474,572	7,376,259	2,353,179,845

Note 1: Beginning with fiscal year 2006, Tax-Exempt Property includes exempt values from over-65 and disabled tax ceilings.

Note 2: The Texas Property Tax Code, under Sec. 25.18, requires each appraisal office to implement a plan to update appraised values for real property at least once every three years. Tarrant Appraisal District's current policy is to conduct a general appraisal of real and business personal property value annually, meaning that a property's appraised value is established and reviewed for equality and uniformity each year. The district conducts an onsite field review of real property in a portion of the county annually as part of a reappraised cycle. Tax rates are per \$100 of assessed value.
