August 5, 2021

To Whom it May Concern,

My name is Steve Zisler and I have lived in Keller for 15 years. I am writing this letter in regard to Case Number: Z-21-009. We live at 1314 Austin Thomas Dr in the Estates of Oak Run. Our back fence will directly back up to the proposed Beverly Grove.

My wife Heather and I are opposed to the proposed zoning changes as well as the plan to build high density houses in the proposed location. Our reason for opposition is outlined below.

1. Track homes with front car garage and high-density housing does not fit the area of Keller where these houses are going to be built. We believe this is off brand and does not fit the aesthetic of the houses that are east of Rufe Snow. All houses in this area have significantly larger lot sizes with existing native trees and putting a track home neighborhood with tiny lots does not make sense to me.
2. Traffic is already significant pulling out of my neighborhood on both Rapp Road and Shady Grove. The addition of 33 new homes and likely 66 more cars traveling these streets daily creates a major concern. The exits/entrances to the neighborhood on not properly thought out and clearly developed by someone who does not travel the streets daily. During busy times traffic will present an issue and ultimately lead to accidents.
3. They plan to clear cut the land and only leave 15 ft of trees as a buffer. This buffer still does not create the desired privacy necessary as well as the thought of clear cutting one of the few remaining green belt areas is sad. Birds, Termites, coyotes, foxes, bob cats, and the many other vast wildlife will be displaced. The proposed plan is better than the prior submission with Wilbow but still presents privacy and noise concerns.
4. The desired plan for development can last up to 3-5 years. This means consistent noise and traffic of construction vehicles and crews working. The peaceful forest behind my house will be replaced by 3 years of nail guns and crews working on building houses. In the current economy I fear the land will be clear cut and then sit for years as they try to sell the lots. I would prefer a retail establishment to be built one-time vs years of development.

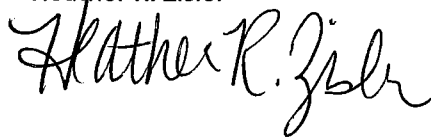

For the reasons outlined above, Heather and I are opposed to these plans. We moved to Keller for the trees and neighborhoods. My hope is that Keller will resist the temptation to garner additional tax revenue by cramming as many small lot homes into an area as possible. It runs counter to the city of Keller's brand and believe it long term will not add value to the city.

Respectfully,

Stephen B Zisler Jr.

Heather R. Zisler

AUG 16 2021

Dear Community Development,

We are writing this letter in opposition to case number Z-21-0009.

We are the homeowners at 960 Roxbury Way, Keller, TX, 76248. Our property is within the 200-foot buffer zone and our opposition should be registered in accordance state law with the requirement that if 20% of owners in this zone are opposed a vote of three-fourths of the City Council is required to approve the zoning change.

While we would much prefer that this area remain undeveloped, if the area is rezoned to residential the residential district must match that of the surrounding residential districts. This means that the residential district must be either SF-15 or SF-12, not SF-8.4.

Sincerely,

Handwritten signatures of Matthew Ricketts and Mandy Ricketts in black ink.

1004 ATLEE DR, KELLER

Dear City of Keller Planning,

We live at 1004 Atlee Dr. in Keller and are opposed to the recommendation for a zoning change application from Retail (R) to Planned Development SF-8.4 (PD-SF-8.4) for Beverly Grove with 33 residential lots.

This land should remain commercially zoned as it was since that's what we were told when we bought our home in April 2015. Instead developers keep trying to shove as many homes as possible into these zoning change requests that they keep trying to get passed.

This is our written opposition as requested by the city of Keller.

Sincerely,

Mary Walker

To Whom It May Concern:
RE: Case # Z-21-009

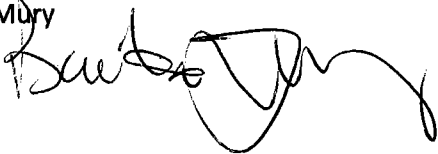

My wife Barbara and I received a letter regarding the above referenced P&Z proposal. Our response is that we both would oppose the upcoming Beverly Grove project as currently presented.

Regards,

Todd Mury

Attn: Community Development Department / City of Keller Council / Katasha Smithers

Ref: Case No. Z-21-0009

Dear Sir / Madam,

We would like to state our opposition to the planned development zoning change (Z-21-0009) from Retail to Planned Development SF-8.4 (PD-SF-8.4) for the Beverly Grove subdivision which is proposed to consist of 33 residential lots and 4 open space lots on approximately 11.38 acres legally known as Tract 3E, Abstract 457.

Rationale: My wife and I purchased our home in the Estates of Oak Run with the knowledge that the undeveloped piece of land at the corner of Rufe Snow and Rapp Road was zoned as Retail and that the Future Land Use Plan showed a planned Medium Density Single Family (MD-SF) designation. With this knowledge we then researched the City of Keller Unified Development Code (UDC) and felt comfortable with the limitations on the ability of a developer to clear cut wooded areas or develop land adjoining existing neighborhoods if the proposed plans were inconsistent with existing surrounding neighborhoods. If the undeveloped land had been zoned differently, we likely would not have purchased the home.

After reviewing the proposed development plans and comparing the lot sizes to the requirements in the City of Keller Unified Development Code it appears that several of the lots do not meet the required minimum lot width of 60 feet as required for an SF-8.4 high density development.

In addition after reviewing the proposed development there are two planned lots (Lot 10 and Lot 11) which would place homes just 22 ft from our neighborhood fence line severely altering the privacy of our properties.

It is our position that the proposed change from Retail to Residential and the proposed high density SF-8.4 development are unacceptable and incompatible with our original reasons for buying the property which we live in.

Thanks & regards,

Martin Holland

Subject: P&Z Agenda August 24,2021

Dear Planning and Zoning Commissioners,

Please let this serve as my written opposition to Items D 3,4, and 5 under new business on the August 24, 2021 agenda.

These zoning requests appear as attempts to satisfy home builders rather than representing the citizens of Keller. The citizens and voters of Keller are not in favor of adding additional density to our city and there is no basis for changing potential retail to residential of any density.

Thank you,
Melanie Belcheff
