Dear Neighbor,

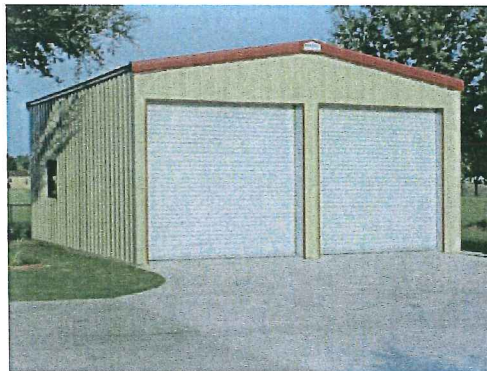

I am writing this letter to inform you of my intent to build a 30-ft. wide by 40-ft. deep by 12-ft. wall height agricultural building in my back yard. The intended use of this agricultural building is to store feed, supplies and potentially a few goats and a few chickens for my family's private use.

The colors used will be muted to the extent that they will not draw attention to themselves and will blend in as much as possible with the natural surroundings. In other words, no flashy colors like red, yellow or lime green for example. This will be a professionally built metal agricultural that will enhance the value of my property (building similar to below picture). This letter simply put is asking if you would approve of such an agricultural building being built in my backyard. If you have no objections to such an agricultural building, please complete the below, sign and date for me. Thank you for your time.

Sincerely;

John D. Heresz  
1847 Florence Road  
Keller, Texas 76262

817 644-6364

I approve or disapprove (please circle one) with the proposed agricultural building being built in my neighbor's back yard.
