RE: Case No. Z-17-0011

Michele,

I am not opposed to Mr. Ron Holifield building a house on his property. My concern is his Red Barn Garage and his use of said barn. Mr. Holifield works on race cars with jet engines. They are so loud that they vibrate the neighborhood. If his garage is for parking only, I am not opposed. If its use is for working on the loud engines, I am opposed.

I have a heart condition and the noise of these machines makes my heart rhythm out of sync. This noise far exceeds the code.

Thank you,
