

To: My Neighbors
From: Billy Isaac (1907 Florence Road)
Ref: Accessory Building

Hello,

I am proposing to have an accessory structure built on my property at 1907 Florence Road in Keller

It will be used for agricultural purposes, mainly farm tractors and equipment, storing and working on this equipment. In addition, I may also have additional agricultural equipment, used for farming and land purposes, stored in the accessory structure.

I was hoping to have your support while I ask the City of Keller for permission to build the accessory building. It will be 1200 square feet, under 15' in height and professionally built.

If you have no issues or concerns and support me, please write your name, address and a contact phone number and or e-mail address.

Thank you,

Billy Isaac
