*Bidders must complete the requested information for each worksheet A through T. Individual items identified are for overall bid evaluation and represent the commonly and most used items.*

*Net prices entered for those individual items must reflect the actual price derived from quoted price list(s) less all discounts offered. At bid opening, references to price schedules will suffice in determining apparent bid winner, but upon award, the winning vendor must provide price lists which, along with the discount quoted, will be used to order a full range of items.*
