Re: Notice of Public Hearing (Zone Change)
Date: 11/9/2020
Case No: Z-20-0007

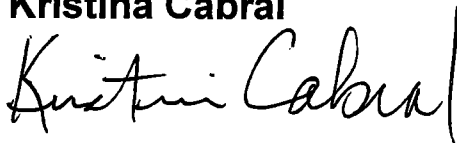

To whom it may concern:

We would like to express our concerns about the zone changing on this case number.. We are directly behind the proposed build at lot 503. We bought this property with intentions of being in a nice and quite neighborhood. In this case this would put the parking spots right up against our brick wall. Not to mention the noise from the restaurant and the delivery trucks, trash pickup (compactor) . This would also bring more unwanted traffic to our area. We do not want this behind our house/ lot. We oppose.
