To: Mark R. Hafner, City Manager

From: Aaron Rector, Director of Administrative Services

Subject:

Consider a resolution approving the FY 2019-20 vehicle replacement purchases through Enterprise Fleet Management and authorizing the City Manager to execute all related purchasing documents on behalf of the City of Keller, Texas.

Action Requested:

Consider a resolution approving the purchase of 9 Police vehicles, 9 Public Works trucks, 5 Parks and Recreation trucks, 3 Fire Administration vehicles, 2 Facilities trucks, 1 Community Development truck, 1 Animal Control Vehicle, and 1 Field Services truck with all being replacement vehicles.

Background:

The City created a Fleet Management Plan during Fiscal Year 2011-12 to provide standards and improve consistency and efficiency in the management and procurement of city vehicles. The plan established a Fleet Management Committee made up of representatives from Public Works, Parks, Finance, Administration, Police, Fire, Utility Billing and Building Services to implement fleet policies and review vehicle requests during the annual budget process. The Fleet Management Plan is applicable to all on-road city vehicles with the exception of fire apparatus.

In FY 2017-18, the City contracted with Enterprise Fleet Management to help with procurement and disposal of vehicles in order to create long-term savings and efficiencies in the City fleet. The savings will be made in part by escalating fleet replacements to avoid high-end maintenance and repair costs in order to keep overall costs of vehicle ownership down. In addition, Enterprise will also handle the actual procurement of vehicles for the City and will deliver the vehicles soon after the start of the fiscal year. During the Fiscal Year 2019-20 budget process, Enterprise reviewed the current City fleet and worked with City staff to determine the vehicles which should be replaced and estimated replacement costs. A review of the proposed replacements was presented to Council on July 2, 2019.

Department Vehicle Type Estimated Costs New/Replacement
