Background:

The City created a Fleet Management Plan during Fiscal Year 2011-2012 to provide standards and improve consistency and efficiency in the management and procurement of city vehicles. The plan established a Fleet Management Committee made up of representatives from Public Works, Parks, Finance, Administration, Police, Fire, Utility Billing and Building Services to implement fleet policies and review vehicle requests during the annual budget process. The Fleet Management Plan is applicable to all on-road city vehicles with the exception of fire apparatus.

During the Fiscal Year 2017-2018 budget process, all vehicle requests were submitted to the committee for review. The committee met as a group and evaluated each request. The City Manager reviewed the requests during departmental budget meetings.

The FY 2017-2018 adopted budget provides funding for the following vehicles:

DEPT	CURRENT	NEW/REPLACEMENT	PROPOSED	BUDGET	QUOTE
