To: Mark R. Hafner, City Manager

From: Aaron Rector, Director of Administrative Services

Subject:

Consider a resolution approving the FY 2018-19 vehicle replacement purchases through Enterprise Fleet Management and authorizing the City Manager to execute all related purchasing documents on behalf of the City of Keller, Texas

Action Requested:

Consider a resolution approving the purchase of 4 patrol vehicles, 4 Police support vehicles, 4 Fire Administration vehicles, 2 Public Works light duty trucks, 2 Community Development vehicles, 1 Public Works medium duty truck, and 1 Parks and Recreation truck with all but 1 Fire Administration vehicle being replacement vehicles

Background:

The City created a Fleet Management Plan during Fiscal Year 2011-12 to provide standards and improve consistency and efficiency in the management and procurement of city vehicles. The plan established a Fleet Management Committee made up of representatives from Public Works, Parks, Finance, Administration, Police, Fire, Utility Billing and Building Services to implement fleet policies and review vehicle requests during the annual budget process. The Fleet Management Plan is applicable to all on-road city vehicles with the exception of fire apparatus.

During the Fiscal Year 2018-19 budget process, all vehicle requests were submitted to the committee for review. The committee met as a group and evaluated each request. The City Manager reviewed the requests during departmental budget meetings.

In addition to the Fleet Management Committee, the City is proposing a contract with Enterprise Fleet Management to help with procurement and disposal of vehicles. Part of the proposed services, includes escalating fleet replacements to avoid high-end maintenance and repair costs in order to keep overall costs of vehicle ownership down. Enterprise will also handle the actual procurement of vehicles for the City and will deliver the vehicles soon after the start of the fiscal year.

Below is the breakdown of proposed vehicles to be purchased in the FY 2018-19 as recommended by the Fleet Committee and Enterprise Fleet Management:
